INAUGURAL ADDRESS

OF

HON. CHARLES S. ASHLEY

MAYOR OF NEW BEDFORD
MASSACHUSETTS

TO CITY COUNCIL

JANUARY 7, 1935

THE A. E. COFFIN PRESS—PRINTERS
NEW BEDFORD, MASS.
1935

INAUGURAL ADDRESS

CHARLES S. ASHLEY, *Mayor*

TO CITY COUNCIL, JANUARY 7, 1935

Gentlemen of the City Council

Through custom the Mayor's Inaugural Address has for many years been a very definite message. It has consisted of a presentation of well prepared and previously formulated plans for the administration of the city's future business. It has, in a measure, served the purpose of furnishing the members of the newly elected City Council with an index or guide to the matters which the Mayor expected to offer for their consideration and action during the ensuing term.

Conditions now make it necessary however to depart from the dictates of custom. Things are changing so rapidly that we are not in a position any longer to plan anything for the future of a substantial nature with any degree of assurance that our ideas can be carried out or that we shall not be obliged to alter them materially or abandon them completely. There are too many uncertainties as to the trend of future legislation both in Congress and in the State Legislature for us to know where we stand or what we can do.

RECOVERY PROGRAM

We are in the midst of a recovery program sponsored by our federal government. Many experiments have been undertaken as part of that program to relieve our people from the effects of the depression. Direct relief has been given by issuing food and clothing to the needy. Employment has been furnished on C. W. A. and E. R. A. projects directly financed by the Federal Treasury and on P. W. A. projects partially financed from the same source through the medium of a thirty per cent grant. All of these work relief projects have involved considerable expense to the city as well as to the nation but no one has begrudged the cost because of the opportunity for work offered to men who for years have been able, ready and willing to work but were unable to find it.

Many attempts have been made to stimulate private industries through N. R. A. regulation and through financial assistance so that some progress might be made in taking up the slack in unemployment in this way and in gradually relieving the load the government is carrying.

REVIEW OF RECOVERY BY CONGRESS

Now Congress is about to give consideration to the present state of the nation. Attention will immediately be focused on the question of the gigantic cost of the relief program. Much will be said about whether the country can afford to continue to spend on the same basis or whether we *must* continue or even expand our relief program regardless of costs or consequences.

There will be propaganda to the effect that private industry is making rapid strides towards improvement and that more federal assistance should be bent in that direction. Much will be said to the effect that the recovery program is retarding progress because of the uncertainty which it involves as to our future economic life, and that we should have the moral courage to discard immediately the new deal experiments and proceed along more conservative lines. On the other hand there will be just as much propaganda to the effect that the recovery program has alone been successful in saving the nation from complete economic and social collapse and that its scope must be expanded if we are to hope to make any further progress in this direction.

To this end there will be considerable agitation for a far greater program of public works than has yet been attempted.

Already all kinds of statistics have been gathered to be used in connection with the furtherance of this idea.

NEW PWA PROJECTS

All of the cities of the nation have been circularized for an expression of opinion as to the basis upon which they could consider undertaking new P. W. A. projects. Suggestions have been solicited as to the advisability of adopting new legislation offering cities a 50% grant as an inducement. Other proposals contemplate long term financing to the cities through the Federal Treasury on a no interest basis.

Frankly I find it difficult to become enthused about the prospects of undertaking any additional P. W. A. projects on any basis. Aside from any question of adding substantially to our debt under any plan which may be proposed to Congress, there has been far too much detail, too much red tape and regulation in connection with the handling of such projects. The whole experience of fighting for approval of a project in the first instance in Washington and then of satisfying the technical and detailed requirements of the engineering, auditing and legal departments of the administration as to plans and specifications and contracts and then of contending with Federal supervision and regulation of the construction itself has been like running the gauntlet. I appreciate that normally there must of necessity be a certain amount of detail in connection with government work which is unknown to private enterprise. There should be a reasonable limitation however so that our efforts might be concentrated on the construction work itself instead of being used up in complying with a maze of office details.

AMERICAN LEGION HIGHWAY

It may be however that regardless of all these considerations it will be necessary and advisable for us to continue our P. W. A. program. With this in mind and in order to be prepared I have had a preliminary survey made in connection with the proposed taking of the property which now lies between Kempton Street on the north and Middle Street on the south and between County Street on the west and Foster Street on the east. This project contemplates the demolition of all buildings now located within this area and would represent the beginning of a highway to be known as the American Legion Highway which we hope will eventually extend from the Fairhaven Bridge westerly to the outskirts of the city. It would provide also a location for the construction of a municipal auditorium some time in the future when the inhabitants of New Bedford can afford it and want it. Incidentally such a project would serve also to divide the city in half and create an effective fire-stop in the event of a threatening conflagration such as some of our neighboring cities have had to contend with.

NEW COGGESHALL ST. BRIDGE

I have also had an investigation made in connection with the Coggeshall Street Bridge. This structure was originally built to carry loads of no more than eleven tons and has now become unsafe for the ordinary use which is being made of it. I am considering the advisability of the construction of a new bridge to remedy this situation.

ACTION BY STATE LEGISLATURE

Coming back to the matter of new legislation which may vitally affect municipal administration, the legislature of our own Commonwealth is about to consider what measures the State shall undertake to supplement the Federal recovery program. It is expected that the State will do something by way of encouraging and assisting in the construction of public works. It is also expected that the State will take some action on the matter of relief either directly to the inhabitants or to the municipalities to alleviate their increased burdens.

OLD AGE INSURANCE AND UNEMPLOYMENT INSURANCE

Our future policies must also in a large measure be influenced by what either Congress or the State Legislature may do in connection with the very vital issues of Old Age Insurance and Unemployment Insurance. These two matters are now imminent as tremendous pressure is being exerted for some action in connection with both of them as a means of providing some form of economic security for the great masses of our people.

SALES TAX

At the same time there is another important item which is about to be given both state and national attention and that is the advisability of adopting a Sales Tax. This new method of taxation has many supporters both in Congress and in the State Legislature. Some advocate the wisdom of its adoption for the purpose of securing additional revenue on the theory that any increase in the present forms of taxation could only serve to defeat their purpose. Others advocate the Sales Tax as a means of substitution and relief for other forms of taxes which are claimed to be already too burdensome. For example it is urged that such a tax could well serve as a more equitable method of distributing the cost of government than the present real estate tax.

1935 BUDGET

And while we are on the subject of taxation and revenue, allow me to say that our problems in New Bedford along these lines have not been our lesser ones. Decreased valuations of property and decreased revenue from all other sources have made it difficult to find the means with which to finance the ordinary functions and needs of our several municipal departments to say nothing of the extraordinary expenditures involved in cooperating with the recovery program of the Federal government. I have already devoted considerable time and attention to the preparation of the budget for 1935. I can already tell you that this matter presents many difficulties without any consideration as to what the future may bring by way of added burdens, but the complete details with all the figures will be presented to you in the very near future in my budget message together with my recommendations. The situation is one that calls for the greatest amount of deliberation and caution and it is my desire to give you the benefit of my best effort and I am proceeding slowly with this thought in mind. In the meantime I have advised the various departments that it is mandatory upon them not to exceed the amount of their expenditures during any month of last year, even though they have presented requisitions which in most instances are substantially greater than last year's appropriations.

BRISTOL COUNTY WATER DISTRICT

The suggestion has been made that an ideal way in which to relieve our debt burden would be to sell our water works for an amount sufficient to pay all we owe. Of course this would place us in an enviable position among all the cities in the United States so far as debt is concerned, but on the other hand it would leave us without a water works which we have always considered as one of our most valuable assets. You have probably read in the paper that a movement is already on foot which seeks to have established a water district for Bristol County and which would take over the plants already in existence within the district. It may well be that during your term of office you will be called upon to give consideration to this extremely important matter.

In conclusion let me say that although I am here offering no definite plans or proposals for your consideration because of the situation which I have previously outlined, I still feel that your administration will probably be as important as any in the history of the city. Pending whatever action Congress and our State Legislature may take however, it will be necessary for us to stand by and await developments. We are merely a political sub-division of the Commonwealth and the Commonwealth is in turn a political sub-division of the nation, and in times like these, we can proceed only with such plans and in such manner as our national and State economic policy dictates.

ANNUAL REPORT

OF THE

Committee on Bath Houses

OF THE

CITY OF NEW BEDFORD
MASSACHUSETTS

For the Season 1934

THE A. E. COFFIN PRESS—PRINTERS
1935

Report of the

Committee on Bath Houses

New Bedford, Mass.,
December 10, 1934.

TO THE CITY COUNCIL:

Gentlemen:—

The Committee on Bath Houses herewith presents a report for the year 1934.

FINANCIAL STATEMENT

Appropriation		$7,800.00
Expenses:		
Advertising and Printing	$ 49.25	
Equipment and Supplies	896.36	
Laundry	47.01	
Lighting	88.09	
Telephone	65.21	
Water	131.85	
Repairs and Alterations	145.40	
Miscellaneous	95.91	
	$1,519.08	
Payrolls	$6,264.31	
		$7,783.39
Unexpended Balance		$ 16.61

COMPARATIVE TABLE

Total Expenses	$7,783.39
Total Receipts	$1,546.70
Net Cost of operation	$6,236.69

There were 111,725 bathers at the Municipal Bath Houses who were provided with a clean beach, rafts and diving equipment, life guards, service, showers, suits, towels and quarters for the extremely low per capita cost of 5½c.

Many changes were made at the Bath Houses this year. A new house built for the exclusive use of children under 14 years of age has made it possible to discontinue use of the locker rooms which have long been considered unfit. The new building houses racks and boxes, showers and toilets for both boys and girls and was extensively used. This separation of children and adults makes a far better arrangement for the public.

In the main building, brick walls have replaced the wooden structure which housed the administration activities. The refreshment stand has been eliminated and the removal of this feature is a great improvement. The first aid room was moved to the west end of the building and was furnished with the finest emergency equipment. The office was also removed to the west end and new desks and chairs have been supplied. The space at the east end of the building, made available by the removal of these two rooms, has been used for the erection of racks in which 500 additional boxes are stored. The boys' locker room is now used for storage and repairs and the girls' locker room for storage.

The construction of jetties is creating a sandy beach which will improve each year.

The sea wall stretching as far as the eye can see is a distinct addition to the shore line.

The board walk has been replaced by a permanent concrete walk and the pipe railing has been replaced by a cement wall. A new cement wall has been built around the pier and has proved a great safety measure.

New showers on each side of the pier have proved a great advantage for those persons who come to the Bath Houses dressed for bathing and so do not use the houses for dressing.

The report of the Superintendent is made a part of this report.

The Committee endorses the suggestion for a conference with Park Department officials and with Police Department officials relative to the problem of using automobiles for dressing rooms.

The Committee takes this opportunity to express its appreciation to Mayor Ashley for his great interest in the development of the Bath Houses.

And thanks are hereby expressed, also, to the Superintendent and to the various members of the staff for the loyal service rendered during 1934.

The Committee believes that the improvements made in the Bath Houses and in the beach will attract ever increasing crowds to the shore during the coming summers.

ROBERT UPTON,
JOSEPH HARRISON,
BERNARD C. McCABE,
DAVID S. ANDERSON,
BERNARD KESTENBAUM.

Committee on Bath Houses.

December 24, 1934.

To the Committee on Bath Houses:

Gentlemen:—

I respectfully submit herewith my report as Superintendent of the Municipal Bath Houses for 1934.

The Bath Houses were officially opened for the season on June 10th and were closed on September 9th, a period of 14 weeks but bathers were accommodated both before and after these dates.

The number of bathers during each week, and the fees received for rental of houses, suits and towels were as set forth in the following schedule:

		Bathers	Fees
Week ending	June 10	2,500	$ 41.75
	June 17	3,600	66.25
	June 24	6,475	120.10
	July 1	14,700	218.00
	July 8	19,500	254.20
	July 15	10,500	127.50
	July 22	16,750	235.25
	July 29	7,600	106.65
	August 5	13,300	157.55
	August 12	5,100	69.45
	August 19	3,500	55.55
	August 26	3,725	50.40
	September 2	1,900	23.30
	September 9	2,575	20.75
		111,725	$1,546.70

The number of bathers during the official season was 111,725, an increase of more than 60% over last year's attendance.

Of the 92 days when the Houses were officially open, 60 days were fair, 29 were cloudy and 3 rainy, a particularly good swimming season.

The ordinary staff was increased by the appointment of a lifeguard and male attendant about the middle of the season when the new children's bath house was completed and opened for use. Extra female attendants were also used as required. This increase in personnel made necessary a larger payroll for 1934 but the service and safety insured made the increased outlay very much worth while. The payroll in 1934 amounted to $6,264.31.

Eighteen dozen towels were purchased but no new suits were bought.

Laundry costs were only $47.01 and shows the decrease in number of suits and towels rented. There is a definite increase, each year, in the number of persons who come to the Bath Houses equipped with their own suits and towels.

All expenses of the department, including payrolls, supplies, equipment, repairs, lighting and telephone amounted to $7,783.39. Receipts from rental of suits and towels and houses totalled $1,546.70 making a net operating cost of $6,236.69. This amount, divided by the patronage, makes a per capita operating cost of 5.5 cents. This small sum includes service of attendants, lifeguards, equipment, showers, lighting and laundry and demonstrates to what low figures the administration of this municipal department is kept.

During 1934, many changes were made at the Bath Houses which have greatly improved the department.

A new building exclusively for use of children under 14 was built on the west side of Rodney French Boulevard West, at the end of Willard Street. It is divided into two sections, one for boys and one for girls and is equipped with showers, inside and outside, and with toilets. Boxes are supplied for use of the children and there is an attendant on each side at all times. The house is open from 9 A. M. until 5 P. M. and was well patronized. The beach, directly in front of the children's house has been cleaned, and the sand bar there makes it particularly desirable for its present use. A raft, expressly for use of children has been placed in shallow water and one lifeguard is on duty in these waters all during the hours when the children's house is open. This has proved one of the finest assets to the department.

The wooden walls of the administration building were taken down and brick walls replaced them. The refreshment stand was eliminated and the first aid room was moved from the east end of the building to the west, occupying the space formerly used for the concession. New equipment for the first aid room was supplied. A hospital cot, mattress, sheets, pillows and pillow cases, spread and blankets were furnished and form a distinct addition and great improvement over the old cot so long in use. Hot and cold water, medicine cabinet and simple first aid equipment have made the room a model of efficiency.

The office was also removed from the east end of the building to the west end. A new desk and chairs for that room have also been furnished and are a fine addition.

The space secured at the east end of the building has been given over to racks and the number of boxes now available has been increased from 1800 to 2300. This new arrangement has eliminated confusion caused, in former years, by the necessity of standing in line to be served. Separate entrances for men and for women make for better service.

The boy's locker room has made it possible to have a work room where boats and equipment can be stored in winter and repaired in spring and summer. The girl's locker room has provided a storage room for benches, bicycle racks, etc.

The board walk has been demolished and the concrete walk, begun last year, was completed. A concrete wall around the board walk has replaced the old pipe-railing which was a constant source of expense, and the new wall makes a better protection. Two drinking fountains were installed here.

Showers on the outside, north and south of the pier, were completed and in use for accommodation of those bathers who do not use the bath houses.

The sustaining wall of the pier was pointed up; a concrete wall was built around the pier, and the roof was recovered.

A new raft with diving stands and spring boards was built and anchored in deep water so that there is no danger of striking bottom at any tide. This makes it possible for larger crowds to use the rafts than has been possible for many years. Each year more people swim and dive and so this second raft, in deep water, became a necessity.

Incidental equipment comprises new life boat, new flag pole, new signs, one for the children's house and one for the main building, new roofs on lavatories for use of the public, and new dressing rooms where subways were closed.

The usual activities of oiling the houses, painting boats, etc. were done.

The Red Cross swimming classes were held twice a week during July and August and were largely attended.

A feature that brought great pleasure to the patrons of the Bath Houses was the weekly E. R. A. band concerts on the pier on Wednesday afternoons. They were greatly appreciated by the people who came to the Bath Houses to enjoy the concerts and at the same time to enjoy the sun and air.

The swimming races and diving contests were held Labor Day and the list of entrants in each class was very large. The E. R. A. Band provided music that day also and at least 15,000 people came to the Bath Houses to witness the events which closed the 1934 season. In the evening of Labor Day, the E. R. A. band played on the pier and block dancing was enjoyed by hundreds of people. About 5,000 people were there to listen to the concert and to look on. The captain in charge of the police detail made favorable comment on the orderliness of the people who attended and I believe this sort of thing could well be repeated, more frequently, next year.

For 1935, I recommend that the Committee consider securing a new raft to replace the older of the two large ones. It is about 15 years old, has twice been rebuilt and the pontoons leaked during the 1934 season to such an extent that they gave much trouble in keeping the raft afloat.

A new lifeboat is necessary, also.

A very serious problem which must be met in 1935 is regulation of use of park property, south of the Bath Houses, and north of the Bath Houses. Automobiles now park too close to the shore and some line should be determined and observed. More important, however, is the increasing custom of using automobiles for dressing and undressing, either with or without pulling down curtains. This custom has developed some very serious situations and I suggest a conference between the Park Board, the Police Department and the Committee on Bath Houses so that some feasible plan may be developed for the satisfactory regulation of this use of automobiles which has grown into a nuisance.

Two new jetties are now being completed north of the Bath Houses and another one is to be built, while south of the Bath Houses, the old jetty has been extended 50 feet and two additional ones have been built.

The sea wall begun last year has been completed north as far as the foot of Woodlawn Street and south to the Screen House. This greatly improves the property, and makes a seat for those who wish to rest.

I want to take the opportunity to thank Mr. Miner W. Wilcox, E. R. A. administrator, for his interest and co-operation in the development of the Bath Houses. And I want also to express to Mayor Ashley my appreciation of the helpful interest he has shown in our problems and for his active co-operation in solving these problems.

To the members of the Committee who have been helpful at all times I wish to extend my great thanks and to say to them that the staff at the Bath Houses has worked faithfully and loyally to serve the public.

Respectfully submitted,

WILLIAM E. FOSTER,
Superintendent.

OFFICE OF THE CEMETERY BOARD

New Bedford, December 1, 1934.

To the Mayor and City Council,
City of New Bedford, Mass.

Gentlemen :—

It is the pleasure of the Board of Cemetery Commissioners to herewith present their annual report of this department, its receipts and expenditures, and a summary of the work accomplished for the year ending November 30, 1934.

CHARLES H. VINAL,
Secretary.

FINANCIAL STATEMENT

Annual appropriation, February 21, 1934	$40,000.00
Transferred from Soldiers' and Sailors' Grave account	1,654.03
Transferred from interest account, perpetual care (6%)	1,671.81
	$43,325.84
Expenditures to December 1, 1934	43,293.15
Balance	$32.69

For classified statement of expenditures, see page 5.

The following revenues, which constitute the income to this department during the year, are paid into the reserve fund of the City Treasury, but a small portion only is available to the department for cemetery use.

Labor to December 1, 1934	$12,556.32
Labor on perpetual care lots, 1933, Savings Banks	19,773.23
Labor on Soldiers' and Sailors' Graves (1934)	1,654.03
Sales of Lots, 1934	5,117.03
Interest a/c, perpetual care 6%	1,671.81
	$40,772.39

Respectfully submitted,

IVAH M. HUNT,

Clerk of the Cemetery Board.

BOARD OF CEMETERY COMMISSIONERS

For a period of forty years, the several city cemeteries have been under the direct supervision of a Cemetery Commission, the greater part of which period having been under the direction of the present personnel of the board. It has been interesting to follow the growth and development of the several grounds from their crude condition at the organization of the board to their present park like appearance.

It has been the purpose of this board to follow the line of modern cemetery improvement, which we feel has received the approval of the general public and all who have interest in the grounds.

By reason of the continued depression and the request that all departments exercise the greatest economy, it has been the province of this board to keep the expenses of the cemeteries within the limited income of the department.

To do this, however, it has been necessary to reduce the number of men employed, to dispense with all permanent improvements and repairs, also policing. The time has come, however, when attention must be given to certain repairs; several of the concrete avenues should be re-surfaced, and many of the soft avenues should be macadamized and surfaced; by cutting out the policing much vandalism has occurred in both Rural and Oak Grove Cemeteries, and damage to some headstones and monuments cannot be repaired. Provision should be made for this protection, and sufficient funds should be allotted to this department to cover these requirements.

The growth of Rural Cemetery has been such that the occupied portion now covers a large area, and as it is now surrounded by a large residential district, it is much used as a thoroughfare. By many it is respected;

by others it is not and this places the emphasis on the necessity of providing continued police protection.

Operation of the E. R. A. project on the undeveloped sections of Rural Cemetery has opened up the entire section of the grounds which border on Rockdale avenue. This necessarily demands the extension of the fence enclosure from Matthew street north at least 500 feet. This should be provided for next season for appearance and protection.

His Honor, the Mayor, did not overlook the needs of this department in his promotion of the several projects under the E. R. A., as an average of 100 men have been given employment in the several grounds. A large area of wild land has been dug over to the depth of a grave; all the stones, tree roots and other obstructions removed and the land levelled and graded. The base work of several avenues in this section has been constructed. This project completes a large amount of prelimminary work which the department has heretofore had to do with a limited number of men and under adverse conditions. It is gratifying to know that this preliminary work has been completed to enable the department to prepare new sections to meet the evergrowing demand for lots.

For the last few years, the income to this department has reached the amount of approximately $42,000.00. This income consists of returns from perpetual and annual care accounts, sale of lots, labor, interments, building foundations and other minor resources.

Under economic pressure, the work in the several cemeteries has been accomplished to the general satisfaction of the public, with but little complaint. To meet, however, the much needed repairs, re-surfacing avenues, painting of buildings and fences, providing proper enclosures, apparatus and tools and *policing* the board is asking for an additional appropriation for next season of $12,000.00, in excess of its income. This amount divided among the four cemeteries does not appear an excessive demand.

Statute Law requires that deposits for perpetual care of lots shall be placed in the savings banks of the commonwealth. The banks having reduced the rate of interest to from 3 to 3½%, we must expect that the income from the perpetual care deposits will be proportionately reduced.

For a complete detail of work accomplished in the several cemeteries during the season, reference is made to the Superintendent's report, a copy of which is herewith attached.

Respectfully submitted,

Cemetery Board.

W. M. HIGHAM,
Chairman.
JOHN G. NICHOLSON,

CHARLES H. VINAL,
Secretary.

SUPERINTENDENT'S REPORT

To the Cemetery Board,
City of New Bedford.

Gentlemen:—

I herewith submit my annual report, covering the season's work in the several cemeteries, together with such suggestions and recommendations I feel it my duty to present.

The regular routine work of the several cemeteries has been accomplished though along an established economical basis, and has functioned as usual.

It should be recognized that the department has had to cut its outlay to such an extent that but little work could be done beyond the perpetual and annual care of lots, interments, headstone foundations and a general upkeep of the avenues and park sections.

There has been no consideration of permanent improvement or even repairs for more than three years. I am therefore presenting these facts to you that provision may be made for the coming year to accomplish the much needed repairs.

Many of the concrete avenues in both Rural and Oak Grove cemeteries have never been re-surfaced, some are badly cracked and have suffered much from the action of water and frosts and general wear.

The water supply should be extended in both of these cemeteries.

An extension of the fence enclosure along the line of Rockdale avenue from Matthew street for about 600 feet should be made.

It is necessary that new trucks should be provided for Rural and Oak Grove cemeteries. They are now using two old T Model Fords which are now obsolete and can only procure repair parts to them by searching the automobile junk heaps of the city. I trust that two modern dump trucks can be supplied these grounds.

The picket fences in Oak Grove and Griffin street cemeteries should be repaired and painted.

The E. R. A. project which has been operating in Rural and Pine Grove cemeteries has accomplished wonderful work, particularly in Rural cemetery, where the digging has been very difficult because of stony soil and tree roots. 57,545 square feet in Rural and 96,400 square feet in Pine Grove have been dug over to the depth of a grave and all obstructions removed. This has all been graded into sections and proper avenue construction started to approach them.

While this large area will not be required for *immediate* burial use, yet it should be seeded and kept in condition for the same when required. This will require a large outlay for grass seed, at least a half ton. The grass will keep the sections from washing and growth of weeds.

In connection with this development in Rural cemetery, the whole water shed of this area will drain into the avenue running parallel with Matthew street, west to Rockdale avenue. For this reason, the avenue should be stoned and surfaced and a large catch basin should be built at its base and connections made with the Matthew street sewer.

I have gone quite particularly into this detail of these requirements as I realize their essential value.

The old flagpole in Oak Grove cemetery collapsed this season and a new pole has been installed. This was an unlooked for expense.

I wish to emphasize the great need of police service in the several cemeteries. Much vandalism has occurred; as the men leave their work at five o'clock, the grounds are left unprotected after that hour.

I am confident that the work of the department has been carefully accomplished under my direction and trust that it has been acceptable to the board.

The following is a summary of the work accomplished during the season.

SUMMARY OF WORK DONE IN 1934

	Rural	Oak Grove	Pine Grove
Sq. ft. land seeded	16,268		
Sq. ft. land rough graded			9,600
Sq. ft. sod laid	836	175	355
Lineal ft. borders trimmed	1,123		11,900
Foundations for tablets and markers	94		22
Foundations for monuments	26	22	7
Foundations re-built		2	
Corner posts in lot	12		3
Trees set out		3	
Flower and shrubs beds	22	42	13
Trees removed		3	1
Trees trimmed and pruned	71	44	118

Shrubs removed	12	2	
Neglected Graves fitted	10	20	30
Graves fitted	250	221	14
Graves fitted in Public Ground	17	7	13
Headstones fitted	52	3	
Neglected headstones fitted	7	10	
Lots fitted	1	3	1
Bodies dis-interred in 1934	5	5	1
Interments made in lots, 1934	212	116	44
Interments made in graves, 1934		1	39
Interments made in Public Ground, 1934			55
Interments made in Soldiers' 'and Sailors' Lot	3		8
Total interments, 1934	215	117	146
Bodies, entombed, 1934	6	3	
Lots sold in 1934	18	4	4
Graves sold in 1934			32
Prepared lots unsold	126	88	486
Value of lots unsold	$30,717	$28,307	$149,640
Graves unsold			103
Value of graves unsold			$3,605
Number of stones cleaned	834	137	3
Number of monuments cleaned	74	7	2
Number of corner posts cleaned		4	
Brick graves built	14	6	1
Lot numbers made			68
Corner bounds set	62		153
Lot bounds made			153
Grave markers made			32
Grave markers set			32
Soldiers markers set up			6
Soldiers graves fitted			6
Lots in annual care	339	289	85

Respectfully submitted,

SIDNEY B. DEMORANVILLE,
Superintendent of Cemeteries.

PERPETUAL CARE

The perpetual care of lots has ever been the persistent feature of the board since its organization, to insure the regular cutting of the grass, the proper pruning of shrubs and care of plants and flowers when such decorations appear.

The Statute Law requires that all perpetual care funds shall be deposited in the savings banks of the commonwealth and the interest only is available for the care of the lot. As the banks have now reduced the rate of interest to 3 and 3½%, the board would suggest that where there are unsufficient funds on deposit at present the interest of which does not fully cover the care of the lot for the entire season that additional sums be added.

All purchasers of new lots should take this feature under consideration and deposit a sum large enough to cover sufficiently the full charge for the care of their lot at all seasons.

To show the general favor in which the public accept the feature of perpetual care, we present the following statement. At the organization of the board, only $26,000.00 was deposited to perpetual care. Thru a regular yearly growth from that period to the close of this year 1934, the amount on deposit has reached the sum of $442,852.33. If the unexpended interest was added to this amount, it would show a half million standing to the credit of this account.

There are several considerations under which perpetual care can be arranged. This will be fully explained when application is made at the office of the board.

Number of lots put in perpetual care 1934

Rural	16
Oak Grove	13
Pine Grove	7
Peckham West	4
Total	40

Total number of lots in perpetual care thru Nov. 30, 1934

REPORT OF CARETAKER OF SOLDIERS' AND SAILORS' GRAVES

New Bedford, Mass.,

December 1, 1934.

To the honorable City Council of the
City of New Bedford.

Gentlemen:—

I herewith submit the following report of the work done on neglected lots and graves where soldiers and sailors are interred as authorized in Chapter 218, Acts of Legislature, 1920:—

	Care of lots and graves	Graves fitted	Lots fitted
Rural	94	52	
Oak Grove	160	13	2
Pine Grove	23	4	
Peckham West	14		
Friends	3		
Sacred Heart	44		
Jewish Cemetery	14		
Griffin street	1		
	365	69	2

The amount appropriated for this work was $1,800.00, and of this amount $1,537.19 was expended for care of lots and graves; $241.00 for fitting graves and lots; making a total expenditure of $1,778.19, leaving a balance of $21.81.

Respectfully submitted,

SIDNEY B. DEMORANVILLE,

Caretaker of Soldiers' and
Sailors' Graves

CERTIFICATES.

I certify that I have examined the deposits and securities representing the investments of the sinking funds of the City of New Bedford and the several trust funds in the custody of the commissioners, trustees and treasurer, and find that the same agreed with the reports for the financial year 1934, rendered by said commissioners, trustees and treasurer to the City Council.

CHARLES J. McGURK,
City Auditor.

We certify that we have examined the foregoing report and statements of the City Auditor and believe the same to be correct.

OSCAR D. KELLEHER,
HENRY S. GORNER,
HARRY LIDER.

Sub-committee of the joint standing committee on finance, appointed to examine the books and accounts of the City Treasurer and City Auditor.

The foregoing report and statements of the City Auditor are approved.

ISAAC DAWSON,
JOHN A. STITT,
ROMEO J. CHAUSSE,
WALTER J. LANGFIELD,
WILLIAM SIMMONS,
Committee on Audit.

City of New Bedford.

In Board of Aldermen,

April 25, 1935.

Received, placed on file and sent down for concurrence.

RODOLPHUS A. SWAN,

City Clerk.

In Common Council,

April 25, 1935.

Concurred.

RUTH G. HILTON,

Clerk.

Attest:

RODOLPHUS A. SWAN,

City Clerk.

City of New Bedford,

April 1, 1935.

To the City Council Committee on Finance:

Gentlemen:—The sub-committee on the valuation of City Property reports herewith a list of City Property and its value. The valuation of real estate has been secured from the Board of Assessors, and the valuation of other property has been secured from the officers in charge of the several departments. The entire valuation is believed by your sub-committee to be a fair valuation of the city property.

JOHN A. STITT,
MATTHEW A. GLYNN,
HARRY A. LIDER.

LSD.

1933	1776	934	1408
1934	1903	1099	1457

During the year 1934, four elections were held, primaries in April and September, state election in November, and city election in December. Complete detail records of these elections are on file in the office of the city clerk and will be displayed on request.

The audit of the accounts of the city of New Bedford for the year ending November 30, 1933, made by the Director of Accounts of the Department of Corporations and Taxation, was submitted to the city council September 27, 1934, and is on file in the records of the city council meeting of that date. This may be seen by any citizen at the clerk's office as any public record. The report contains no recommendations.

Clerk

Attest:

RODOLPHUS A. SWAN,
City Clerk

A SUMMARY OF AN AUDIT OF THE ACCOUNTS

of the

CITY OF NEW BEDFORD

For the Fiscal Year Ending
November 30, 1934

Made in accordance with the provisions of
General Laws, Chapter 44, Section 36.

General Laws, Chapter 44, Section 40, provides:—"Upon the completion of each audit, as aforesaid, a report shall be made to the mayor and city government in cities, * * * and a copy of the same shall be furnished to the city or town clerk, who shall cause the same or a summary of its essential features to be published at the expense of the city or town."

SUMMARY OF AUDIT

Published by Rodolphus A. Swan, City Clerk.

The report of an audit of the books and accounts of the city of New Bedford for the fiscal year ending November 30, 1934, submitted by Theodore N. Waddell, Director of Accounts, Department of Corporations and Taxation, Commonwealth of Massachusetts, made in accordance with General Laws, Chapter 44, is in the form of a report made to him by Herman B. Dine, chief accountant of the Division, of 50 typewritten pages together with a balance sheet which is published herewith.

There are no recommendations contained in the report. The financial transactions of the city, as recorded on the books of the several departments receiving or disbursing money for the city or committing bills for collection, were examined and verified by a comparison with the books and records in the offices of the treasurer and the auditor.

The only comment in the report that is not in routine form of examination and verification follows:

Treasurer's and Collector's Department.—The books and accounts of the treasurer and collector, as city treasurer, were examined and checked in detail. The recorded receipts were compared with the collector's records of collections from taxes and assessments, with the records in the several departments in which charges originated or in which money was collected for the city, and with other sources from which money was paid into the city treasury. The disbursements were verified by a comparison with the approved treasury warrants and with the auditor's books. Payments in advance of warrants, which had been authorized by the city auditor, were checked and verified. The cash book was footed, the cash on hand was personally counted and verified on January 14, 1935, as of January 12, 1935, and the bank balances were proved with statements furnished by the several banks of deposit.

The examination of the treasurer's and collector's accounts disclosed a cash shortage of $31,458.06 as of January 12, 1935, which was due entirely to a defalcation on the part of a teller in the employ of the treasurer's and collector's department. Investigation revealed the fact that the teller had been withholding stubs detached from receipted tax and departmental bills, retaining for his personal use the amount of money represented by the stubs and not accounting for the money when making his daily cash settlement with the city treasurer. While the following table itemizing the teller's shortage would indicate that the peculations occurred between October 27, 1934 and January 10, 1935, there is evidence, nevertheless, that, to some extent, the defalcation extends over a longer period, it appearing to be the practice of the teller to withhold stubs of current tax collections and to use the cash retained thereon to cover tax items which were previously collected by him and not accounted for to the city treasurer. It was found that the teller's settlement sheets were altered as far back as 1932 and this appeared to be the method adopted by him to cover stubs withheld.

The total shortage of teller No. 1 as finally determined is itemized as follows:

Taxes 1934 (collected and not accounted for)—	
Masonic Building Trust, paid October 27, 1934	$14,677.46
William C. and Cora W. Welsh, paid November 5, 1934	1,111.27
Public Welfare accounts receivable (collected and not accounted for)—	
Town of Palmer, paid November 15, 1934	433.49
Vocational School accounts receivable (collected and not accounted for)—	
Town of Fairhaven, paid December 17, 1934	522.00
Town of Acushnet, paid December 18, 1934	836.00

Town of Fairhaven, paid December 24, 1934	362.40
Town of Acushnet, paid December 26, 1934	504.00
Town of Rochester, paid December 31, 1934	608.00
Town of Dartmouth, paid January 8, 1935	824.40
Liquor license (collected and not accounted for)—	
Michael M. Neenan, paid December 31, 1934	300.00
Water accounts receivable (collected and not accounted for)—	
New Bedford Rayon Co., paid January 10, 1935	1,377.05
Cash discrepancy in reconciliation of teller's cash balance January 14, 1935	10,039.98
	$31,596.05
Less fictitious interest reported as a receipt January 2, 1935	137.99
	$31,458.06

The payments on account of debt and interest were proved with the amounts falling due and with the cancelled coupons and securities on file.

The savings bank books and securities representing the investment of the funds in the custody of the city treasurer were personally examined and verified.

Appended to this report are schedules showing a reconciliation of the treasurer's cash and summaries of the financial transactions of the trust and investment funds.

As may be seen from the appended table showing a reconciliation of the treasurer's cash as of January 12, 1935, the cash in the office and in the banks was $11,097.79 less than the balance called for by the cash book on the above date. This discrepancy consists of the sum of $10,039.98, which is part of the defalcation of teller No. 1, mentioned previously, and of the amount of $1,057.81 which was charged to another teller and which was restored to the treasury during the progress of the audit.

The books and accounts of the treasurer and collector, as city collector, were examined and checked in detail. The commitments of taxes and assessments were compared with the warrants issued by the board of assessors, and the abatements were checked with the assessors' records of abatements granted. The recorded colections were checked with the commitment books and the daily reports of collections, as shown on the auditor's records and the treasurer's cash book. The outstanding accounts as shown on the commitment books were listed and verified by a comparison with the auditor's ledger.

The commitments of departmental bills were checked and verified by a comparison with the records in the several departments, the recorded abatements granted by the departments were checked, the collections were compared with the treasurer's and the auditor's books, and the outstanding accounts were listed and reconciled. Verification notices were mailed to cover all departmental accounts outstanding as of January 11, 1935.

Notices requesting verification of the outstanding accounts as shown on the books of the collector were sent to 12,370 persons. From the 6,875 replies received thereto it appears that the outstanding accounts, as listed, are correct, with the exception of the items previously mentioned as having been withheld by teller No. 1 and payment of which was verified by an examination of receipted bills or cancelled checks.

The tax title deeds taken by the city and the record of taxes and assessments added to tax titles held by the city were examined and checked and a detailed list compiled. The record of collections on account of the redemptions of tax titles was checked and verified.

A detailed list of the properties acquired by the city through tax title possession was compiled and verified. The receipts on account of sales of this property were checked with the records in the office of the clerk of committees and with the treasurer's cash book.

Trust and Investment Funds.—The savings bank books and securities representing the investments of the several trust funds held in the custody of the city treasurer were personally examined and verified. The income was checked and proved and the recorded disbursements were examined and verified.

In checking the income of the trust funds it was found that interest coupons in the amount of $5,000 have been defaulted as follows:
Kempton Fund:

Atlantic City,	
Due March, 1933	$ 550.00
Due September, 1933	550.00
Due March, 1934	550.00
Due September, 1934	550.00
Due March, 1935	550.00
State of Arkansas,	
Due June, 1933	562.50
Due December, 1933	562.50
Due June, 1934	562.50
Due December, 1934	562.50
	$5,000.00

The balance sheet of the examiners follows:

ANNUAL REPORT

City Treasurer, Collector of Taxes, Soldiers' Relief, Commissioners of Sinking Funds, and Trustees of Bequests, Gifts and Trust Funds.

February 28, 1935.
In Board of Aldermen,

Received, placed on file and send down for concurrence.

RODOLPHUS A. SWAN,
City Clerk.

In Common Council,
February 28, 1935.

Concurred.

RUTH G. HILTON,
Clerk.

Attest:

(Signed) RODOLPHUS A. SWAN,
City Clerk.

FORTY-SECOND ANNUAL REPORT

OF THE

ENGINEERING DEPARTMENT

CITY OF NEW BEDFORD

BY THE

CITY ENGINEER

For the Year 1934

THE A. E. COFFIN PRESS—PRINTERS
NEW BEDFORD, MASS.
1935

NEW BEDFORD

January 1, 1935

Set off from Dartmouth	1787
Incorporated as a city	1847
Length of city	10.78 miles
Breadth of city (Maximum)	3.10 miles
Area—Land	12,229 acres
Ponds	193 acres
Land and ponds	12,422 acres—19.40 sq. miles
Tidal Water	8,457 acres
	20,879 acres—32.62 sq. miles
Length of frontage on tidal waters	10.13 miles
Depth of main channel	30 feet at low water
Average rise and fall of tide	3.65 feet
Population:—Assessors' estimate	110,022
Assessed valuation	$117,027,550.00
Assessed valuation per capita	$1,063.67
Accepted streets	212.97 miles
Bridges (3)	0.796 miles in New Bedford
Sewers	184.66 miles
Length of Intercepting Sewer:	
Outfall	0.626 miles
Interceptors	8.781 miles
14 parks and 6 public playgrounds, area	268.48 acres
42 school buildings: Area of ground (Includes 2 unused)	74.27 acres

ENGINEER'S REPORT

City of New Bedford,
Engineering Department,
January 1, 1935.

To the City Council of the City of New Bedford:

Gentlemen:—In compliance with section 56 of the city ordinances defining the duties of the City Engineer, I respectfully submit the following report of the expenses and operations of the Engineering Department for the year 1934.

RECEIPTS FOR FISCAL YEAR ENDING NOVEMBER 30, 1934

Appropriation	$26,500.00

EXPENDITURES

Salaries and payrolls	$22,830.71	
Local transportation	2.316.77	
Photography	28.60	
Office furniture and repairs	223.64	
Meteorological instruments	24.37	
Telephone and telegrams	15.18	
Annual reports	29.00	
Drawing supplies	158.86	
Plotting system	36.52	
Blueprint supplies and equipment	66.35	
Printing, stationery, advertising, etc.	384.19	
Public statutes and reference books	54.50	
Traveling expenses, express, postage, etc.	71.57	
Sundries	75.51	
General Instruments for Office and Field	159.22	
		$26,474.99
Unexpended balance		25.01

Receipts from sale of blueprints, material and maps paid in to General Revenue	$44.00

All the regular work of the Department has been carried on as usual. In addition designs, estimates, plans, lines and grades were furnished for all C. W. A. and E. R. A. projects for streets, sewers, parks, cemeteries and other public property, other than buildings and water works, undertaken this year. Supervision was furnished on one project located outside the city. Designs, estimates and plans, as well as correspondence, etc., were furnished on three P. W. A. projects. The cost of this work was met through the regular department appropriation.

Lines and grades were furnished on the High School and Water Works projects, and lines, grades, and inspection on P. W. A. Highway, Sewer, and Harbor Improvement projects. The cost of this service amounting to $2,430.34 was paid directly from the project fund and thirty percent is to be borne by the United States Government.

Respectfully submitted,

GEORGE H. NYE,

City Engineer.

MAINTENANCE ACCOUNT FOR INTERCEPTING SEWER

JAMES H. MAHONEY,
Appointed December 31, 1914.

STATION NUMBER FOUR,
WILLIAM S. GATENBY,
Appointed, April 10, 1927.

STATION NUMBER FIVE,
JAMES L. HASKINS,
Appointed July 8, 1924.

STATION NUMBER SIX,
CHARLES E. GREENE,
Appointed April 10, 1927.

STATION NUMBER SEVEN,
EDWARD H. COGGESHALL,
Appointed April 26, 1910.

STATION NUMBER EIGHT,
EDWARD A. POLLOCK,
Appointed March 21, 1923.

STATION NUMBER NINE,
JOSEPH RUMNEY
Appointed March 22, 1931

STATION NUMBER TEN,
FRANK J. NICKLAS,
Appointed February 19, 1924.

STATION NUMBER ELEVEN,
HERBERT H. STONE
Appointed December 19, 1934.

REPORT

December 31, 1934.

Hon. Charles S. Ashley, Mayor.

Dear Sir:

I have the honor to submit, herewith, my thirty-first annual report of the conditions and operations of the fire department for the year 1934.

The department answered 352 Box alarms and 524 Still or Telephone alarms, a total of 876 calls during the year.

There are eleven Stations (ten brick and one frame) in the custody of this department.

A new brick station is being built to replace Station No. 9 which is an old frame building.

A new Ahrens-Fox 500 gallon pumper was installed at Station No. 9 to replace a piece of apparatus which had become unfit for service.

The Fire Prevention Bureau made 846 inspections during the year and corrected many fire hazards.

Inspections of all public schools have been made by the Chief, Deputy and District Chiefs during the year.

A Zone Training School for firemen of nearby towns has been conducted at our Drill School for a period of ten weeks following our regular drill schedule.

APPARATUS IN COMMISSION

8 Motor Pumping Engines.
4 Electrical Aerial Trucks.
1 City Service Truck.
3 Hose Wagons with Booster Equipment.
1 Foam Chemical.
5 Automobiles for Chief and Assistants.
1 Automobile for Fire Prevention Bureau.
1 Supply Truck for Repair Force.
1 Supply Truck for Fire Alarm Branch.

APPARATUS IN RESERVE

1 Motor Combination Pumping Engine.
3 Motor Combination Chemical and Hose Carriers.
3 Steam Fire Engines equipped with short towing poles.
1 Moon Roadster.
1 Winton Touring Car.

MANUAL FORCE

Consists of 192 permanent men.

HOSE

1,950	feet of 3 inch.
18,100	feet of 2½ inch.
950	feet of ¾ inch.
400	feet of 1 inch.
200	feet of ⅝ inch.
88	waterproof covers carried on apparatus.

DEATHS

Edward F. A. Cowen, Hoseman, Engine Co. No. 1, joined the department October 31, 1882, placed on pension roll Sept. 2, 1917, died January 14, 1934.

Norman S. Dyer, Chauffeur, Ladder Co. No. 1, joined the department May 1, 1910, died May 2, 1934.

Manuel C. Claudino, Chauffeur, Engine Co. No. 9, joined the department Sept. 30, 1917, died May 6, 1934.

RECOMMENDATIONS

I recommend the purchase of 2,000 feet of 2½ inch hose and a new truck for the Repair Force.

Respectfully submitted,

EDWARD F. DAHILL,
Chief of Department.

NEW BEDFORD, MASS.

Darwin Press
1935

Office of the Board of Health,
New Bedford, Jan. 21, 1935.

To His Honor, the Mayor, and
Gentlemen of the City Council:

In presenting the annual report for 1934, we refer your honorable body to the various reports of the divisional heads. As usual the largest item of expenditure during the year was for the care and treatment of persons suffering with tuberculosis. While there are less cases reported each year, treatment of those who recover is so long that there is no appreciable falling off in the expenditure.

The outstanding feature of the year is the fact that for the first time in the history of New Bedford, we had no deaths from diphtheria, which is a most gratifying record.

Respectfully submitted,

Joseph R. Glennon, *Chairman,*
John M. Salles, M. D.
John M. Kelleher,
Board of Health

REPORT OF AGENT AND EXECUTIVE OFFICER

New Bedford, Jan. 9, 1935.

To the Board of Health,

Gentlemen:

The general death rate for New Bedford in 1934 was 11.87+. There were 1260 deaths during the year and if we subtract the 99 non-resident deaths we get an adjusted death rate of 10.21, a very gratifying result in these days of depression, when every community in the country is looking for an increase in the number of deaths, owing to low resistance of many who are facing conditions never before experienced. As a matter of fact, New Bedford being a textile city, the record is still more gratifying because it is the lowest mortality rate of any textile community of equal size.

The year was unusually free from serious epidemics of a contagious nature. There were only nine cases of typhoid fever, and several of these were young people who acquired the disease by eating raw shellfish taken from polluted waters, and a particularly gratifying record is the fact that there was not a single death from diphtheria. Never before since the Board of Health has kept a record of its contagious diseases and deaths, has a year passed without diphtheria claiming three or more victims.

During the year there were found in the city two typhoid carriers, one a case of long standing and the other a more recent incident of the disease. The first named case was discovered through the report of an active case of typhoid fever to the Board of Health, and an investigation of the history of the case developed the fact that the patient, who had not been away from New Bedford for many months, had eaten food at the home of a friend, who proved to be a typhoid carrier. Members of the family were given prophylactic inocculations as is usual in such instances. Both carriers will be under frequent investigations and their whereabouts made known to the State Board of Health, as is customary in such cases.

The leading causes of deaths were heart disease, cerebral hemorrhage, cancer and broncho-pneumonia, in the order as named. There were 20 deaths attributed to automobile accidents; and 12 suicides,—thirteen less than during the year 1933, when there were 25.

The number of infant deaths exceeded the record of last year. In 1934 there were 110 deaths of children under one year of age, seventeen more than during the year previous. The number of births last year was 1774, and the infant mortality for the year is 62.01, an increase over 1933.

Between 60 and 70 years proved the trying period for 272, that being the leader in the age group. Next came the period between 70 and 80 years of age when 255 met with death; between 40 and 50 years 111, and between 30 and 40 years 63, while between 20 and 30 years 54 passed out.

The following is the record of deaths and mortality rates since 1889:

Year	Deaths	Rate	Population
1890 . . .	775	18.9+	41,000
1891 . . .	960	21.8+	*44,000

THE NEWLY BORN

Again we report another falling off in the number of births reported by midwives in New Bedford. Several years ago, ex-Mayor Remington, when City Clerk, started a movement to place restrictions on the work of midwives, and since that time the number has decreased each year. Last year midwives officiated in but 22 births. There were the same number of cases of ophthalmia neonatroum reported for the year as in 1933—seven in number; and a falling off in the cases of suppurative conjunctivitis. The nurse in charge of irrigating the eyes of afflicted infants made 824 visits as against 725 in 1933.

INFANT MORTALITY

Of the 110 deaths of children 1934, seventy of the infants failed to survive a month. Thirty-three died within the first 24 hours, the same number as in 1933. The following is the record of deaths under one month since 1926.

Year	Under 1 month	Year	Under 1 month
1927	98	1931	90
1928	96	1932	52

DIPHTHERIA

With not a death from diphtheria in 1934, the Board may well feel encouraged to go on with its work of immunizing against this malady. With an enrollment of 22,000 school children at the opening of the school year, we now have furnished protection for over 16,000 children of the public and parochial schools. This drive was begun in May and June of 1933, and was completed during last November. Applicants continually present themselves for treatment at the office of the Board. The nurses employed in the department are urging the mothers of the newly born to take their children to their family physician when eight months of age, this period of child life being considered by all who are engaged in this work as the best time to start protection from the disease.

The number treated at the office of the department during the year was 348, mostly children of pre-school age. The demand for toxoid and toxin antitoxin by physicians in the city was greater last year than in former years, and it is reasonable to assume that a goodly number of young children were treated by family physicians, of which we have no record. Toxoid is now being used principally for treatment in the younger group of child life, it being considered by health authorities far more effective than toxin antitoxin.

REPORTABLE DISEASES

There was a falling off in every instance of reportable disease during the year, as compared with 1933, excepting in scarlet fever, whooping cough and measles. In 1933 there were reported 144 cases of scarlet fever with three deaths, while last year houses were placarded for 197 cases and one death. The number of new cases of Pulmonary Tuberculosis reported last year was 35 short of the year previous, while the deaths from the same cause were 19 less than in 1933. It is to be regretted that among the number of new cases reported during the year several were found in the advanced stage, indicating that the victims had paid little heed to the world-wide advice—not to neglect this particular malady. Many, no doubt, even at this writing, fail to give attention to this particular form of trouble, through pride, and in the instances cited above, too late was written against their records. Despite the trying period of unemployment and of economic unrest, the death rate from tuberculosis has continued to decline.

T. B. PATIENTS

The year just ended has proven to be the most expensive twelve months of any year since the Board first took on the work of care and treatment of persons suffering with pulmonary tuberculosis. Over $105,000 was expended in 1934. There were 20 patients treated at their homes in this city, 176 at Sassaquin and 21 patients living elsewhere who had a New Bedford settlement.

Of the 176 treated at Sassaquin 75 were married and 101 single; nine were discharged improved, 20 apparently arrested, 13 quiescent, one improved and 20 died. The nativity of the patients treated in the local institution was as follows: New Bedford 95; other cities in the United States 31; Portugal 17; Canada 8; Cape Verde Islands 8; England 9, Poland 4; Ireland 3 and Russia 1.

During the year Sol-E-Mar, connected with St. Luke's Hospital, treated 13 patients, Lakeville 14, Attleboro 6, and Rutland and Plymouth County Sanatorium, one each.

REPORT OF FIELD DIRECTOR

New Bedford, Mass., January 1, 1935.

To the Board of Health:

Gentlemen:

I herewith submit my report for the year ending December 31st, 1934.

CHILD WELFARE

Our nurses employed in this work made 32,593 visits. There were 6,844 children under their supervision, of whom 1,509 were new cases. During the year 249 Well Baby Clinics were held, the attendance at the clinics being 7,177. The individual children taken to the clinics numbered 1,577.

The nativity of the mothers who took their children to the clinics is shown by the following table:

New Bedford	410	Brazil	1
Massachusetts	130	Newfoundland	1
United States	89	France	3
Canada	38	Italy	5
England	31	Ireland	1
Portugal	30	Norway	2
Azores and other Islands	59	Nova Scotia	1
Greece	3	Belgium	1
Poland	6	Scotland	1
Prince Edward Island	1	Turkey	1
Syria	2		

During the year there were 1,774 babies born in New Bedford, of whom 110 died under one year of age, giving our city a mortality rate of 62.. The rate is higher than that of 1933, and it is interesting to study the statistics which show how brief a life most of the children had who died in their first year.

Deaths under one year, 1934:

Lived less than one day	33
” between 1 day and 1 week	26
” ” 1 week and 1 month	11
” ” 1 month and 2 months	7
” ” 2 months and 3 months	3
” ” 3 months and 6 months	12
” ” 6 months and 9 months	9
” ” 9 months and 12 months	9
	110

These statistics show that of the 110 children who died under one year 30 percent lived less than one day, and over 50 percent lived less than one week. It is a fair presumption that these cases were beyond the care that our nurses can give.

TUBERCULOSIS WORK

The nurses doing follow-up work in Tuberculosis made 6,387 visits. They have under their supervision 1,756 persons of whom 191 are new cases. These nurses were also in attendance at the three weekly clinics held in the Olympia Building. From the number of advanced cases that come to our attention the conviction is borne in upon us that more intensive work should be done with children and adolescents in order to discover the disease in its incipient stage.

PAROCHIAL SCHOOL WORK

The nurses engaged in this work made 11,155 class room inspections. There were 4,964 eye tests made, and 3,370 throats examined. The nurses gave 349 health talks.

The Medical Inspectors made 1,726 physical examinations.

In the campaign for the control of diphtheria by immunization, the Pastor of the parishes having schools and the Sisters teaching in them, cooperated in every way possible. Great improvement has been made in health work in the Parochial Schools during the past ten years aand there is promise of still greater in the years to come.

Accompanying this report is a detailed statement of the year's work.

Respectfully submitted,

W. B. GEOGHEGAN,
Director of Field Work.

REPORT OF TUBERCULOSIS CLINIC

New Bedford, Jan. 7, 1935.

To the Board of Health:

Gentlemen:

I herewith submit my annual report as chief of the T. B. Clinic:

Number Patients Examined	2325
Number Re-examinations	1949
Number of New Pulmonary Cases	41
Number Suspicious Cases	174
Not Tuberculosis	124
T. B. Glands	1
Hilum Tuberculosis	17
Sanatorium Treatment Advised	51
X-Ray Advised	198
Arrested Cases	111

Respectfully submitted,

JAS. F. BREWER, JR., M. D.,
Chief of Clinic.

REPORT OF BACTERIOLOGIST

New Bedford, Jan. 1, 1935.

To the Board of Health,

Gentlemen:

I herewith submit my report for the year ending December 31, 1934:

Diphtheria:

Whole number of cultures examined	160
Whole number of cultures positive	14
Whole number of cultures negative	141
Whole number of cultures unsatisfactory	5

Tuberculosis Pul:

Whole number of specimens examined	88
Whole number of specimens positive	9
Whole number of specimens negative	78
Whole number of specimens unsatisfactory	1

Typhoid Fever:

Whole number reaction	1
Whole number negative	1

Gonococcus:

Whole number—office	39

Respectfully submitted,

A. H. MANDELL, M. D.,
Bacteriologist.

REPORT OF MEDICAL INSPECTOR

New Bedford, Jan. 1, 1935.

To the Board of Health,

Gentlemen:

I herewith submit my report as medical inspector and attending physician for the department for the year ending December 31, 1934.

Cultures taken for release and diagnosis of Diphtheria	65
Scarlet Fever releases	197

Investigated 169 cases, of which 46 proved to be tubercular.

Other cases were	Diphtheria	7
	Typhoid Fever	9
	Measles	13
	Scarlet Fever	23
	Lobar Pneumonia	24
	Whooping Cough	8
	Varicella	5
	Mumps	2
	Infantile Paralysis	2
	Dog-Bite	4
	Not of a contagious nature	26

Signed 4 certificates of death, there being no attending physician at time of death.

Respectfully submitted,

A. N. SENESAC, M. D.,
Medical Inspector.

SENIOR DENTIST'S REPORT

New Bedford, Jan. 13, 1935.

To the Board of Health,

Gentlemen:

The writer begs to report that the equipment loaned the New Bedford Woman's Club, for use at the Cook School, is still in their possession.

I understand, however, same is not in use.

Respectfully submitted,

F. J. HOYLE, D. M. D.,
Senior Dentist.

REPORT OF THE VENEREAL DISEASE CLINIC

New Bedford, Jan. 1, 1935.

To the Board of Health,

Gentlemen:

I hereby submit my report as Chief of the Venereal Disease Clinic.

Number of patients examined	934
Number of new patients	377
New admissions, Syphilis	124
New admissions, Gonorrhea	138
Readmissions	98
Number of patients discharged	
Probably cured	51
With permission	38
Without permission	218
Number of visits for treatment and advice	12845
Number of arsenical treatments	1584
Number of blood tests	468
Number of smears for Gonococcus	431

Respectfully submitted,

A. H. MANDELL, M. D.,
Chief of Clinic.

REPORT OF OCULIST

New Bedford, Jan. 15, 1935.

To the Board of Health,

Gentlemen:

I herewith submit my report as Oculist for the year ending December 31, 1934:

Total calls made	512
Total Supp. Conjunctivitis	44
Total Simple Conjunctivitis	73
Total Ophthalmia Neonatorum	6
Total Blepharitis	1
Total Gonorrheal Ophthalmia	1
Total No Disease	1

Respectfully submitted,

ARTHUR L. BRUNELLE, M. D.,
Oculist.

REPORT OF PUBLIC VACCINATOR

New Bedford, Feb. 20, 1935.

To the Board of Health,

Gentlemen:

During the year ending December 31, 1934, there were successfully vaccinated by me against smallpox 2,184 persons. In addition to the above, there were immunized against Diphtheria, using toxoid, 377. This service was rendered at the office of the Board of Health.

Respectfully submitted,

L. K. DORAN, M. D.,
Public Vaccinator.

In addition to the above, the City Mission clinic vaccinated 65 persons against smallpox.

WILLIAM G. KIRSCHBAUM,
Agent and Executive Officer.

REPORT OF INSPECTOR OF MILK

New Bedford, Feb. 28, 1935.

To the Board of Health,

Gentlemen:

I herewith submit my report for the year ending December 31, 1934.

Milk Dealers Licenses Issued	53
Milk Dealers Licenses Revoked	5
Cream Licenses Issued	2
Oleomargarine Licenses Issued	55
Store Licenses Issued	569
Dealers Selling Pasteurized Milk	44
Dealers Selling Grade "A" Milk	2
Dealers Selling Certified Milk	1
Dealers Selling Tuberculin Tested Milk	8
Farmers Recorded in 1934	400
Producers Permits Revoked	4
Farms where milk excluded temporarily	20
Cows excluded	2
Dairy Plant Inspections	471
Ice Cream Plant Inspections	38
Dairy Farm Inspections	1061
Miscellaneous Inspections	1
Bacterial Examinations of Milk	534
Chemical Analyses of Milk	379
Cream Samples for Chemical Analysis	11
Ice Cream Samples for Chemical Analysis	8
Ice Cream Samples Examined for Bacteria	8
Court Prosecutions	2
Court Convictions	2

It is important to note that all of the tubercular cattle were eradicated from this milk shed during the year by the Division of Animal Industry of the Massachusetts Department of Conservation. All of the milk now sold in New Bedford comes from tuberculin tested cows. Due to the testing of these cattle, many improvements have been made by the farmers to their dairy barns. In several instances entirely new barns were erected. The milk producers are worthy of comment in not only having improved conditions under which milk is produced, but in also having provided employment to a large number of people.

The modernization of milk plants by milk dealers is also to be commended, not only from a public health point of view but in having provided additional work to the people of this community.

New laws were passed by the Legislature this year pertaining to the manufacturing of ice cream mix and/or frozen desserts thereby increasing the amount of work of this division.

Milk Averages for Year 1934

	Fat	Total Solids	Bacteria per cc.
Pasteurized Milk	3.89	12.64	21,295
Tuberculin Tested Raw Milk	4.40	13.59	12,125
Grade "A"	4.70	14.11	8,000

Respectfully submitted,
A. A. LANDREVILLE,
Inspector of Milk and Provisions.

REPORT OF INSPECTOR OF MILK, PROVISIONS AND SLAUGHTERING

New Bedford, Jan. 30, 1935.

To the Board of Health,

Gentlemen:

My report as Inspector of Milk, Provisions and Slaughtering for the year 1934 is herewith submitted:

All the cows within city limits were tested for tuberculosis during the past year and a small percentage of them reacted and were condemned.

Numerous inspections of bakeries, markets, stores, restaurants, lunch carts, soda fountains, hotel kitchens and cold storage plants were made during the year and on the whole were found to be in fairly good condition.

All bottling plants and linguica or sausage manufacturing plants were inspected before obtaining a license and any corrections that were needed were so ordered before obtaining a permit.

Frequent inspections were made of premises where fowl were stored and slaughtered and many corrections ordered.

Many dog bites were reported to the Board of Health during the year, these were investigated and no case of Rabies was discovered.

Respectfully submitted,
WM. J. O'CONNOR, V. M. D.,
Inspector.

REPORT OF INSPECTOR OF SLAUGHTERING

New Bedford, Jan. 1, 1935.

To the Board of Health,

Gentlemen:

I herewith submit my annual report of the work performed by me during the year ending December 31, 1934.

INSPECTIONS DURING YEAR

	Cattle	Calves	Hogs	Sheep
January	118	85	53	3
February	167	75	29	1

Respectfully submitted,

EDGAR E. CORY,
Inspector.

REPORT OF INSPECTORS OF PLUMBING

New Bedford, March 19, 1935.

To the Board of Health,

Gentlemen:

Following is the work by the Inspectors of Plumbing for the year ending December 31, 1934:

Inspections of Plumbing, investigations of nuisances and defective plumbing and inspection of Relief Valves	3,563

Respectfully submitted,

WILLIAM DEACON,
ERNEST G. PARKER,
Inspectors of Plumbing.

REPORT OF SUPERINTENDENT OF GARBAGE PLANT

New Bedford, Jan. 25, 1935.

To the Board of Health,

Gentlemen:

I herewith submit report of the Garbage Disposal Department for thirteen months ending December 31, 1934:

Following is the amount of material collected and disposed of:

Tons of rubbish	7,393	
Tons of garbage	13,312	20,705 tons
Dead Animals	610	

Respectfully submitted,

A. M. THRESHER,
Supt. Garbage Disposal
City of New Bedford.

ANNUAL REPORT

New Bedford, January 2, 1935.

To His Honor the Mayor and City Council of the
City of New Bedford:

Sirs: I respectfully submit my annual report of this department from November 30, 1933 to December 31, 1934.

INSPECTION OF INSIDE WORK

During the year have made 6,680 inspections.

Have issued to the New Bedford Gas & Edison Light Company, 2,482 permits to connect electric services.

Sent out to the contractors and property owners 1,720 reports on defective wiring.

Have issued 1,702 certificates on rough work.

REMOVAL OF OVERHEAD WIRES AND CONSTRUCTION

On January 24, 1934, after a meeting of the Inspector of Wires, City Engineer and Superintendent of Streets, the following letter was sent to the Mayor and Board of Aldermen:

Gentlemen:

The undersigned met on January 24, 1934, in accordance with section 3, chapter 335, of the acts of 1914, and voted to recommend the following streets to you for action in ordering the removal of poles and wires this year:

Emerson St., Arnold to Union
Chancery St., Hawthorn to Court
Union St., Rotch to Rockdale Ave.
Rounds St., Arnold to Court
Jonathan St., Arnold to Court

Total—5,415 feet

Yours truly,

(Signed)

WILLIAM P. BRIGGS, Inspector of Wires.
GEORGE H. NYE, City Engineer.
WILLIAM P. HAMMERSLEY, Supt. of Streets.

Amount to be removed each year under the act, 5,280 ft.

City of New Bedford,

In Board of Aldermen.

February 21, 1934.

WHEREAS, under the provisions of Chapter 335 of the Acts of 1914, notice has been given and a hearing has been held by this board, it is hereby

ORDERED, that all telegraph, telephone, electric light, electric motor or power, and all other wires, cables and conductors in and above the hereinafter designated streets, and all poles and structures in said streets used for the support of the same, excepting such structures, poles, cables, wires and conductors as are excepted by said Chapter 335, Acts of 1914, shall be removed within the time named in said chapter, or that said wires, cables or conductors shall be placed, maintained and operated in underground conduits.

Locations for said underground conduits shall be petitioned for in accordance with the provisions of Chapter 335, Acts of 1914, and all acts in addition thereto or amendment thereof.

The streets or parts of streets designated and affected by this order are as follows, to wit:

Emerson St., Arnold to Union
Chancery St., Hawthorn to Court
Union St., Rotch to Rockdale Ave.
Rounds St., Arnold to Court
Jonathan St., Arnold to Court

Total—5,415 feet

The City Clerk is hereby directed to serve notice of the adoption of this order upon the owners of all wires, cables or conductors in and above said streets, and all poles and structures in said streets for the support of the same, by mailing to each of said owners, by United States registered letter mail an attested copy of this order.

And the City Clerk is hereby further directed to cause this order to be recorded in the Book of Location Order Records, as provided in Chapter 509, Acts of 1911, and to furnish a copy of this order to the Inspector of Wires, the City Engineer and the Superintendent of Streets of the City of New Bedford.

IN BOARD OF ALDERMEN,

February 8, 1934.

Adopted.

RODOLPHUS A. SWAN, City Clerk.

PRESENTED TO THE MAYOR FOR APPROVAL.

February 9, 1934.

RODOLPHUS A. SWAN, City Clerk.

APPROVED.

February 9, 1934.

CHARLES S. ASHLEY, Mayor.

ATTEST:

(Signed) RODOLPHUS A. SWAN, City Clerk.

OUTSIDE WORK

During the year I have investigated and reported to the Mayor and Board of Aldermen on 85 petitions of wire using companies, involving 1249 poles and 3 conduit petitions.

POLICE SIGNAL SYSTEM

Two new boxes have been installed requiring the extension of line for a distance of 1750 feet and the installation of under-ground cable for a distance of 600 feet. Minor line changes have been made for short distances, and existing under-ground cable has been renewed for a distance of 243 feet. Line construction has been changed over onto forty-two new poles and two police boxes have been relocated on new poles.

The building changes at Police Headquarters required some rewiring. New relays were installed on three of the flash-light circuits and some new battery installed.

There are 91 police boxes connected to the system with seven emergency connections.

Respectfully submitted,

WILLIAM P. BRIGGS,
Inspector of Wires.

TRUSTEES' REPORT

To the Honorable, the City Council of the City of New Bedford, Mass.

The trustees present their eighty-second annual report to the City Council in the Report of the Librarian, which has been adopted by the Board.

Respectfully submitted,

BOARD OF TRUSTEES,

GEORGE H. TRIPP,

Clerk of the Board.

LIBRARIAN'S REPORT

To the Trustees of the Free Public Library:

The Eighty-second Annual Report of the library will be much shorter than usual since the general condition of the library has been well covered in the pamphlet recently issued on, New Bedford Libraries - "Then and Now." In general I would say that the various departments of the library have been carried on, as usual, with increasing demands for information and opportunity for reading. Although the circulation is a little less than the peak years—as we find in the reports from all over the country—the work in the library is increasing in importance, and recognition of the value of the collection of books and the service rendered, is apparent. It is quite worthy of note that questions on matters which the New Bedford Library seems to be one of the few libraries which can answer, as queries on certain genealogical and maritime matters, pour in from various parts of the country; from California, Illinois, District of Columbia, Pennsylvania, and South Carolina, to mention a few only of the sources of the questions which every few days come to our library.

It is gratifying to know that in the eighty-two years the library has accumulated a vast material of importance.

Through the aid furnished by the government agencies—the NRA and FERA—the main building and branches have been renovated by painting the interior. Also the FERA has furnished the assistance of girls who have been able to arrange a large collection of manuscripts which were purchased from the Custom House many years ago, but which have never been arranged as the time and means were lacking. These girls have made a chronological arrangement in five year periods, stretching back over one hundred years. This material has already proved itself of value, as items on maritime matters can often be found there and nowhere else.

Some of the branches are receiving gifts of books which are very acceptable.

The South Branch is able, by its somewhat larger personnel, to have story hours which prove of value. During the year, eighty story hours were given; the first half of the year, two a week with an average attendance of thirty or forty at each session, and the latter half, three a week with a limited attendance of twenty-five. The assistants in that branch appreciate the work of the police in recovering overdue books, and in helping to maintain order in and around the building.

During the year the Main Library was able to send a collection of books to one of the light-ships, following a custom for a number of years.

In the Art Room there was a notable addition of an original painting by Dwight W. Tryon, presented by Oliver G. Ricketson of South Dartmouth and Washington. The Art Room had an exhibit of William Baylies' pictures, also drawings by Mr. Kenworthy.

During the year the Art Room and the Juvenile Room circulated 55,618 pictures.

The book collection on December 31, 1934, by actual count numbered 195,941.

During the year there were 770 meetings held in the library.

There were the usual Book Talks (thirteen) held on Monday afternoons during the winter months.

Respectfully submitted,

GEORGE H. TRIPP,

GHT/M Librarian.

Many improvements were made in the parks under E. R. A. projects with an estimated cost from Federal Funds of $95,520.66.

At Buttonwood Park two new tennis courts were built, and also a new garage. There was grading done, the pond made larger and a new recreation house started. Brooklawn Park had a retaining wall built, grading done, two new tennis courts and a bowling green made. Hazelwood Park, two new tennis courts were made, a new wall built, and improvements made to the house in the park.

New playgrounds were opened up, and on the old ones improvements were made and grading done, at a cost of $7,983.90, as E. R. A. projects.

Respectfully submitted,

BARNEY PAPKIN,

PLANNING BOARD REPORT

City of New Bedford,
January 1, 1935.

To the City Council of the City of New Bedford.

Gentlemen:

In compliance with the General Laws, Chapter 41, Section 71, and with Section 5 of an ordinance adopted by the City of New Bedford January 23, 1925, the Planning Board respectfully submits the following report of its doings and expenses for the year 1934:

The Board held four meetings during the year 1934, three of which were for the purpose of hearings on petitions for changes of zone, as now required by Chapter 269 of the Acts of 1933.

Fourteen petitions for changes of the zoning map were considered, only two of which the Board recommended. All of these petitions were requests for a lower grade of classification.

Such petitions are generally in the nature of spot zoning to obtain an exclusive privilege for a single lot in a residence district in order to sell or use the same at an enhanced value. This was well illustrated in a case before the Board this year, where two banks owned diagonally opposite corner lots. The first petitioned for a change from residence to business as it had an opportunity to sell this lot at a good price if it could be used for a filling station. The other bank opposed granting the petition on the ground that it would injure the value of their property which they had improved, and secured two good tenants who would move if the protection of a residence district was removed.

It seems absurd to assume that the state has enacted a statute involving the use of its police power to confer special privilege to the owner of one lot and deny it to the owners of other lots in the same district and of similar physical characteristics.

As a matter of fact the statute clearly states that the provisions of zoning ordinances "shall be the same for zones, districts or streets having substantially the same character".

Where New Bedford has enough street frontage already zoned for business to provide one store with forty feet frontage for every two families in the city, it does not seem necessary to provide any more business frontage other than small extensions of the present allotment or to care for a marked change in the character of some sections.

There were three applications for the erection of billboards during this year all of which were approved. There were no applications for billboards to be erected in residence districts.

The expenditures of the Board for the fiscal year ending November 30, 1934, were as follows:

Appropriation		$100.00
Publications	$ 3.00	
Annual Report	15.00	
Dues—Massachusetts Federation	30.00	
Dues—National Conference on City Planning	5.00	
Traveling Expenses	10.00	
Printing and Stationery	8.00	
Advertising	7.20	
Total expenditures		78.20
Unexpended balance		$ 21.30

Respectfully submitted,

CHAS. S. ASHLEY, Mayor,
Chairman.
OSCAR D. KELLEHER, Alderman.
WILLIAM MARTIN, Councilman.
WILLIAM P. HAMMERSLEY,
Superintendent of Streets.
JOSEPH R. GLENNON,
Member of Board of Health.
CHARLES N. SERPA,
Member of Park Board.
GEORGE H. NYE, City Engineer,
Secretary.

BOARD OF APPEALS REPORT

City of New Bedford,
January 1, 1935.

To the City Council of the City of New Bedford.

Gentlemen:

In compliance with section 155 of the building regulations, the Board of Appeals respectfully submits the following report of its doings and expenses for the year 1934:

Meetings and public hearings have been held regularly on the first and third Wednesdays of each month, except in cases when there were no petitions to be acted upon. Eighteen cases have been considered and acted on as follows:

4 appeals for variances granted,
2 appeals for variances granted with conditions,
3 appeals for variances dismissed,
4 consents for alteration to non-conforming building granted,
2 consents for alteration to non-conforming building granted with conditions,
3 consents for alteration to non-conforming building refused.

Seventy-three cases were considered in 1926, 95 cases in 1927, 49 cases in 1928, 48 cases in 1929, 27 cases in 1930, 30 cases in 1931, 19 cases in 1932, 12 cases in 1933, and 18 cases in 1934, making a total of 371 cases that have been acted upon by the Board of Appeals in its nine years of existence. No decision has been appealed to the court.

Seven of the nineteen petitions were for garages.

In consideration of cases we have received the wholehearted and helpful coöperation of both the building and fire inspection departments.

This year for the first time in the history of the Board it became impossible to get the vote of the entire membership of the Board required for the granting of a variance due to the personal interest of a member in a case.

Acting under the authority conferred by Chapter 269, Section 27, Acts of 1933, the city council on September 13, 1934, adopted an amendment to the zoning ordinance to provide for the appointment of two associate members of the Board to act when designated by the Mayor in place of a regular member in case of his unavoidable absence or inability to act by reason of his personal interest.

Acting under this amendment the Mayor appointed and the council confirmed the appointment of Mr. Ulric E. Collette and Mr. Harold W. Connolly as associate members of the Board of Appeals.

The expenses of the board for the fiscal year ending November 30, 1934, were as follows:

Appropriation		$400.00
Clerical Work	$304.92	
Advertising, Postage, Printing and stationery	57.95	
Filing Cabinet	31.24	
Total expenses		394.11
Balance		$ 5.89

Respectfully submitted,

WILLIAM RITCHIE, Chairman.
LESTER S. CORNELL,
JAMES F. COLLINS,
GEORGE T. SCHULER,
NAT C. SMITH.

Police Matron.

REPORT OF POLICEWOMAN

Herewith I have the honor to transmit my report as Policewoman, for the year ending December 31, 1934:

Investigations	424
Conferences	360
Accompanying girls for physical examinations	23
Lost children cared for	16
Needy cases invesigated for this department	10
Accompanying girls to state clinics	28
Accompanying girls to institutions:	
Industrial School for Girls at Lancaster	10
Sherborn Reformatory for Women at Framingham	4
State Farm at Bridgewater	3
State Hospital at Taunton	5
State Department of Child Guardianship	5
City Infirmary	2

Environmental investigations have been more numerous, and effecting family adjustments have been more difficult as an increased number of girls over sixteen years have come to my attetion. Less cases of destitution have been referred to me.

At the request of the Girls' Parole Branch of the State Division of Juvenile Training I have investigated homes of girls returning on parole. There were less cases of neglected children.

I have attended sessions of the Juvenile Court and have had the required physical and mental tests made before Court action.

There has been a striking increase in the number of sex offenses involving younger girls with older men.

I would express my appreciation for the courteous cooperation always shown by the members of the department, officials of many other municipal departments, the Third District Court of Bristol, and the representatives of the several social agencies.

Respectfully submitted,
MYRTLE E. CODY,
Policewoman.

REPORT OF THE IDENTIFICATION BUREAU

The following is a report of the Bureau of Criminal Identification for the year ending December 31, 1934:

Total number of finger print records on file	11,324
Finger prints taken of persons arrested	187
Finger print records received from other departments	110
Finger print records furnished other departments	42
Identification of criminals other than local	17
Identification of criminals, having previous record	112
Cases investigated	52
Cases investigated for the following towns:	
Fairhaven, Mass.	2
Acushnet, Mass.	4
Finger prints taken of Veterans applying for bonus	16
Finger prints taken of Veterans applying for duplicate discharge	5
Finger prints taken of persons applying for Government positions in which finger prints are required	17

Respectfully submitted,
RAYMOND CHASE,
Deputy Chief.

PROMOTIONS

May 28, 1934

Patrolman James D. Gatenby, promoted to Supervisor of Motor Equipment

June 26, 1934

Patrolman Thomas E. Carr, promoted to Sergeant
Patrolman Robert W. Hirst, promoted to Sergeant
Sergeant Edward O. Brophy, promoted to Lieutenant
Sergeant Augustus F. Velho, promoted to Lieutenant

SUSPENSIONS

January 25, 1934

Patrolman Albert A. Crapo, suspended for 14 days, violation of Rule No. 61

April 12, 1934

Patrolman Antoine Turgeon, suspended for 7 days, violation of Rule No. 61

APPOINTMENT

July 10, 1934

Fred C. Calnen, appointed janitor at Police Headquarters

PENSIONED

Patrolman William Mitchell, retired on pension March 11, 1934
Patrolman William H. Souza, retired on pension April 15, 1934

RESIGNED

June 26, 1934

Peter P. Welch, resigned as janitor at Police Headquarters

There were no deaths in the department during the year.

REMARKS AND RECOMMENDATIONS

In submitting the annual report for the year 1934 I consider that in addition to the regular classified work of the Department, herein described, I should mention some of the many services rendered by the Department, in addition thereto.

During the month of April about twenty of the members of this Department were employed for about three weeks checking the census and acting as assistant assessors. We also had two primary days and two elections that require the assignment of every officer in the department.

From September 4th to September 24th during the Textile Strike, every man in the Department worked from two to ten hours per day extra. For weeks after, the labor trouble continued in other plants. The only compensation the men received was one extra day off. I consider every man did his work willingly and tactfully and, I claim, with good results from every angle. This unusual condition, however, added materially to our year's expense. It became necessary to prepare for serious emergencies such as other cities were experiencing at that time.

Furthermore, there are seven patrolmen assigned to important work, in other departments, but carried on the Police payroll, during the whole year, which deprives this Department of their services. The Department also provides transportation to all persons committed to State Institutions from the Third District Court. Otherwise the transportation charges would be against the City of New Bedford, not the Police Department account. Another important service rendered by the Police Department is in connection with the hospitals and clinics. We have carried over 9,000 persons to and from the hospitals during the year.

The men have also given a good deal of time in revolver practice and up to the present time about 125 have qualified as marksmen, sharpshooters and experts. This has been accomplished through the valuable service rendered by Mr. John Lucian who devoted the major part of his evenings to instructing the men.

I am pleased to note that our serious crime record is far below that of most of the cities in the United States of equal population. This has been favorably commented upon by one of the leading criminologists of the country, Dr. Simons of New York, who has made an extensive study of all crime statistics recorded in the Department of Justice records. We have, however, a few serious crimes which have not been cleared up but this can not be attributed to lack of effort.

PERSONNEL AND EQUIPMENT

I recommend the promotion of five Sergeants to be Lieutenants and of five patrolmen to be Sergeants. This will not reduce the number of men on patrol duty. The Sergeants will be assigned to Patrol Cars relieving patrolmen for street duty. The Lieutenants will replace the Sergeants. In my opinion it is also necessary to appoint additional patrolmen as soon as possible. Note, the last appointments were made in 1926.

We also need three new motorcycles replacing those in service for five years, also replacing a radio car that has patrolled about 90,000 miles. With the increase of our motor vehicles in Department service it is impossible to properly handle them, check and repair them, with the present garage space. I have previously suggested an addition to the garage on Second Street extending thirty feet towards Spring Street. This would make sufficient room to house when necessary, any part of our motor vehicle equipment.

I hope that my recommendations will meet with your approval, and in conclusion I wish to thank His Honor, the Mayor, the City Council, the Court, the Press, and the Public for the cooperation given this department in the past year.

Respectfully submitted,

SAMUEL D. McLEOD,

Chief of Police.

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

AND

SUPERINTENDENT OF SCHOOLS

OF THE

CITY OF NEW BEDFORD

FOR THE YEAR

1934

THE A. E. COFFIN PRESS—PRINTERS
NEW BEDFORD, MASS.
1935

IN SCHOOL COMMITTEE

New Bedford, Mass., December 13, 1934.

In Memoriam

Charles T. Bonney, a member of this Board for six years and a teacher in the New Bedford High School for forty-nine years, died November 18, 1934.

As a teacher Mr. Bonney came in contact with pupils of three generations and won the respect and affection of all. He began as a teacher of Latin and Greek and, after teaching many other subjects, finished as a teacher of History. When he announced his candidacy for the School Board in 1928 the many pupils who had come under his instruction rallied to his support and gave him a flattering vote. This was a fine tribute and expressed the loyalty and friendship which a long life in education merited. Always congenial and friendly his membership on this Board was a fitting climax to his long life of generous and painstaking service to the youth of New Bedford.

Daniel H. Ferguson, Inspector of School Property for this department since 1909, a period of twenty-five years, died on November 15, 1934.

During his long term of service his integrity won for him the respect alike of the employees of the department, the business men of New Bedford and all whom he met in the course of his work.

Faithful, honest and efficient his was a high type of public service.

SCHOOL COMMITTEE, 1935

CHARLES S. ASHLEY, Mayor, Chairman, ex-officio
FRANK VERA, Vice-Chairman
ALLEN P. KEITH, Superintendent and Secretary

IN SCHOOL COMMITTEE

December 28, 1934.

Voted: That the Secretary be directed to prepare and edit the Annual Report of the School Committee for the year 1934 and that one thousand copies of the same be printed.

The following report for the year 1934 is respectfully submitted:

Report of the School Committee

STATISTICS

POPULATION AND VALUATION

The population of the city (census of 1890) was	40,705
The population of the city (census of 1895) was	55,251
The population of the city (census of 1900) was	62,442
The population of the city (census of 1905) was	74,321
The population of the city (census of 1910) was	96,652
The population of the city (census of 1915) was	109,462
The population of the city (census of 1920) was	121,217
The population of the city (census of 1925) was	119,539
The population of the city (census of 1930) was	112,804
Valuation of the taxable property (1934) was	$117,027,550.00
Schoolhouses and lots	7,437,349.00
Other school property	564,731.25

ADDENDA

(See School Reports for 1923 and 1928)

Important Events in the History of the New Bedford School Department

1852—North School opened (Closed 1909, returned to City Property Committee June 1, 1934).

1876—Summer Street High School occupied—September.

1923—First Kindergarten Supervisor appointed — Mary Howard French.

1929—Home Teachers provided for Shut-ins.

1930—Lip-reading teacher appointed—Dorothy S. Foster.

1931—State-aided Class for Hard of Hearing—Mildred L. Palmer, teacher.

1931—General salary reduction (from 5% to 10%)—June 1st.

1932—General salary reduction (10%)—July 1st.

1932—Fifty-two week payment plan for teachers adopted.

1932—Americanization department discontinued.

1932—Evening Schools suspended.

1932—General reduction in Physical Education, Music, and Art Departments.

1932—Married women teachers requested to go on leave of absence.

1932—Course of Study in English revised.

1932—Mary B. White School returned to City Property Committee.

1933—School building repairs carried on under the Federal Emergency Relief Administration.

1934—Married women teachers reinstated.

1934—Rockdale School closed.

1934—Addition to High School begun under Public Works Administration.

1934—Nursery Classes opened under Educational Relief Administration.

1934—General Adult and Vocational Classes opened under E. R. A.

1934—General Vocational Course added to Continuation School.

Following are the names of teachers and other employees who have left the service or who have been appointed to the department during the year 1934:

Report of Superintendent

To the Honorable School Committee:

Miss Sumner and Gentlemen:—

I have the honor to submit the seventy-fourth annual report of the Superintendent of Schools of this city.

During the past year we have made an earnest effort to adjust our work in all departments to meet the changing conditions which constantly confront us. The Educational Relief Administration adult classes have allowed us to supply in part the loss occasioned through the suspension of our evening schools. The E. R. A. school repairs project has given us an opportunity to make much needed repairs to our school property and the Public Works Administration addition to our senior high school will enable us to return to a single schedule session next September.

The National Recovery Administration regulations forced all boys and girls, except those employed in household or agricultural service, to return to school. This has crowded our junior high schools and continuation classes. In cooperation with the Vocational School and the state authorities general vocational classes have been organized to take care of part of the overflow. Two Seven B classes have been reopened at the Congdon School and at the beginning of the February term it will be necessary to open four more Seven B classes, two north and two south. I believe that with the opening of these classes we will have reached our maximum enrolment.

The November number of the Research Bulletin of the National Education Association is devoted to Modern Social and Educational Trends. The summary and conclusions give such an excellent view of present conditions that I am presenting them as a part of this report.

ECONOMIC

"(1) *Science and power*—The applications of research have profoundly modified life. There has developed an amazing accumulation of knowledge. Modern power-driven machinery has transformed the home and families have more time for recreational and cultural pursuits. Many women have been free to enter gainful employment.

"(2) *Potential plenty*—For the first time in history man can probably produce enough for all. Power combined with science has developed machinery which can turn out goods with incredible speed and efficiency. But the era of plenty is only a potential one. We need still to develop a distribution system which is coordinated with the effectiveness of the production system.

"(3) *Acceleration*—In the period of agrarian dominance of American life, the rhythm of life was relatively slow. Today, with power-driven machinery, buildings are constructed more rapidly, farms plowed in less time, distance annihilated by rapid transit facilities, and mass impressions speeded by new means of communication. Changes come upon us with accelerated rapidity and make life more complex for increasing numbers of people.

"(4) *Leisure time*—Year by year mankind has been freed more and more from unremitting toil. Improvements in technology have placed increasing amounts of time at the disposal of all workers. Industry is finding less need for children and youth, thereby increasing the possibilities of a lengthened period of schooling.

"(5) *Interdependence*—An industrial society requires first of all a supply of raw materials. Our silk mills depend upon Japan for raw silk, cotton mills rely upon southern fields, and steel mills require the coal of Pennsylvania and the iron ore of Michigan. The fabrication of automobiles, telephones, and other machinery calls for imports from all parts of the world. In financial matters the world is closely bound together. The typical pantry shelf reveals the world's interdependence for food supplies. In a thousand ways our daily lives are touched by the events in remote nations and in nearby communities.

"(6) *Standardization*—As the world becomes more closely related, ideas and ideals spread rapidly. The rhythm and ethics of life in industrial nations penetrate to all parts of the world. Standards of living are cast in a mold that places the auto, the telephone, the radio, and the electrical refrigerator among the necessities of comfortable living. Overwhelmed by new additions to knowledge, people turn to the breezy news review, the anthologies of literature, and the digests of current periodicals.

"(7) *Economic insecurity*—In an agrarian society each family, and to a certain extent each individual, is largely independent. As America changed from an agricultural nation to one predominantly industrial, many people surrendered their economic independence. The employee's, and often the employer's means of livelihood is dependent upon the business cycle, and economic security is threatened to an extent not known in an agricultural civilization.

"(8) *Collective action*—Freedom of the individual in many aspects of life has been a tradition of American civilization. A peculiar type of self-reliance was required under pioneer conditions. A continent to be gained and exploited stimulated a race for property, power, and prosperity. But though this phase of life has been greatly publicized, it was, and had to be, accompanied by collective action. The early colonists were able to exist only because people worked and fought together. The continent was won by the trains of covered wagons, welded together by railroads, educated by schools, and otherwise united by cooperation among groups of people. Today through legislatures, conferences, committees, associations, and other groups, citizens are working together to advance the general welfare.

"(9) *Centralization*—Partly as a result of economic conditions and partly because of the demand for more collective action, there has developed an increase of government participation in everyday life. The federal government increases its control and direction of industry, agriculture, and banking. State governments increase their supervision of education, housing, police work, and other social activities. Great companies merge into larger corporations, with national and even international affiliations. Chain stores are important competitors of the independent corner stores. Credit and banking facilities reach from the smallest town to Wall Street.

"(10) *Objectivity*—The farmer planted his crops by certain traditional formulas until controlled laboratory studies displaced many of these 'rule of thumb' guides with scientific principles and practises. The home has surrendered much of its traditional domination of the individual and released youth to an ever widening sphere of influences. Experience and experiments are substituted for 'arm chair' philosophy. More and more people are subjecting all phases of life to the pragmatic test: 'Does it work?' The demand for objectivity has set the stage for clearer thinking and more efficient action in regard to the intricacies of modern life. "

EDUCATIONAL

"What do the foregoing social and economic changes mean to education? No one can predict with absolute certainty.

"(1) *Philosophy of education*—If there is to be an adjustment of education to a changing civilization, schools need to direct their efforts toward broader objectives. Education has been primarily concerned with making people literate. Book learning that developed abilities to memorize, to read, to comprehend, and to recite has been of fundamental importance. Schools have been organized, teachers trained, and instructional materials prepared with book learning as the controlling factor. It is no condemnation of the past to hold that present social conditions and objective knowledge as to the nature of the learner make it necessary for the general philospohy of education to be enlarged. Education must be recognized as a continuous process from birth to death; from sunrise to sunset. It is not something that goes on for a few hours each day within the four walls of the school. Education arises from, exists in, and will continue to flourish as a part of its surrounding social culture. It cannot be completely isolated from life outside of the school.

"(2) *Teachers*—Teacher-training institutions have in the past produced capable technicians—well-grounded in knowledge and methods of instruction. But today society needs teachers who are zestful and capable students of social problems. If in the future training agencies have fewer, more carefully selected students, they should find new opportunities to improve the social understanding of teachers now in service and to help school systems to keep pace with an advancing social order. There falls upon the individual teacher the obligation to keep abreast of social trends and to participate actively in life outside of school. At the same time he will need to perform his professional duties in accordance with good taste, high standards of scholarship, and respect for community opinion.

"(3) *Childhood*—Constantly new discoveries are being made about the nature and the nurture of children. Educational methods that treat children as small-sized adults will continue to lose ground. More attention will be given to individual differences. The influence of the early years upon later life suggests the advisability of further efforts to remove disabilities and to stimulate potential talents. All of the activities of life are recognized increasingly as educational, although not necessarily efficient and constructive. The new attitudes toward childhood forecast the hopes and the values that people generally, and educators in particular, expect to characterize our future American civilization.

"(4) *Social curriculum*—It follows certainly that with the extension of knowledge in all fields of human life the curriculum of the schools will be greatly enriched. Through the recasting of existing courses and the integration of all types of subject matter in terms of meaningful units, the lag between the advance of knowledge and the school's offering will be taken up. The *use* of facts in social experiences within the school, such as pupil government, committees, clubs, publications, and the like, will bring a form of enrichment characteristic of but few educational programs of today. Pupils will study the inter-relations between the various aspects of society, noting where inarticulations occur, exploring the causes of difficulty, and projecting possible improvements.

"(5) *Instructional methods and materials*—Since schools have been primarily places for book learning, the dominant classroom procedure has been the recitation. This method succeeded in spreading a degree of literacy among the people. It contributed little to an understanding of the problems of modern life. Recognition of the futility of the typical recitation does not minimize its contribution to American education. But through experiments teachers have found new methods which, while utilizing the advantages of the older procedures, promise to develop the type of thinking ability required by modern life. Through the use of libraries, laboratories, debates, conferences, and committees, students are participating in the direction of their own learning. The teacher is no longer the dictator, but a guide.

"The social emphasis in education calls for the development of new materials, textbooks, and equipment. Universities, research centers, and teacher-training institutions will assume more responsibility for developing materials which can be used to enrich the student's reading. Thus, students will be constantly in touch with up-to-date and vital sources of information.

"Every effort will be made to encourage the pupil to become so interested as to go beyond any formal assignments. Education will cease to be a list of activities bound between the covers of the course-of-study bulletin. It will become all of the activities of life through which the pupil may improve himself. Schooling of this type will make for open-mindedness, tolerance, and suspended judgment as well as for initiative and decisive action. Thus equipped, the public of tomorrow should be able to make more intelligent decisions in matters of public policy.

"(6) *Internal organization and management of schools*— It seems likely that the present school system will extend its systematic efforts both downward to include younger children and upward to provide for adults. The units of the system may be reduced in number, and certainly will be more closely integrated to further the continuity of school experiences.

"The management of the school system may be expected to adjust itself to newer social needs and a broader theory of education. Artificial and unnecessary distinctions between types of teaching positions will give way before the realization that all teachers are workers in a common cause. School systems will provide further for the democratic sharing by administrators, teachers, and students of the responsibilities of management.

"(7) *External contacts and administration*—The schools will need to be organized so that educational experiences available to children may have the maximum of concreteness and reality. Educators will figuratively level the walls of the schools through excursions, journeys, and extended trips. Experts and creative artists will enter the schoolroom in person or by means of the radio and the sound motion picture. The school will not be a world set apart, with manners, ethics, and problems different from those of the real world.

"The financial support of education is an administrative problem which needs to be considered in the light of social conditions. The recent depression has clearly revealed that the financial problems of education are deeply rooted. There is reason for believing that our national income can be increased beyond its 1929 peak, if we will make intelligent use of our natural resources, labor, and means of production. In this social advance, education, if given adequate financial support, will contribute to the vocational efficiency of individuals and the social intelligence of people generally.

"(8) *Character and citizenship*—The American public school has always been concerned with morals and character development. It has been generally recognized that the character and the social intelligence of the people generally are the basis of a more perfect and more permanent democracy.

"Another general trend will be the shaping of the entire program so as to contribute constructively to the wholesome use of lesiure. There are some who view an increase of leisure time as a threat to good character. Others view the new freedom as an opportunity for the enrichment of character. Which of these predictions will come true depends largely upon the amount of intelligence which the American people bring to the problem. If the schools develop students with the maximum ability to direct their own time along wholesome lines, the threat is not serious. To do this, the school's program must be broadened in scope and attractiveness as suggested in preceding paragraphs. The arts and crafts must be taught by artist-teachers who can awake the latent talents which exist.

"Changes in government, in economic organization, in labor conditions, in population, and the many other phases of life have produced many strains upon our American civilization. In spite of genuine differences as to the steps necessary to meet changing conditions, our faith in America leads to the belief that 'it is the dawn and not the dusk of the gods.' "

In common with other school departments throughout the country and through the courtesy of the Standard-Times we are giving a series of broadcasts over WNBH each Friday evening from eight fifteen to eight thirty o'clock on the subject of "Your Schools and You." Four talks have already been given and those who have listened in will recall that in many instances we are following out many of the suggestions quoted in the foregoing quotation from the November Research Bulletin.

As a result of Miss Sweeney's trip to Rochester I have appointed a committee of nine, five principals and four teachers, to evaluate the data she brought back and make a report later on what could be adapted to New Bedford and how the many innovations could be used profitably for the benefit of the pupils in the New Bedford schools. Miss Sweeney was pleased to report that some of the ideas were already in use in our Workshop Classes.

For your kind forbearance, your patience, and your sympathetic interest in considering the many perplexing questions of the past year, I am deeply grateful.

Respectfully submitted,

ALLEN P. KEITH.

ANNUAL REPORT

OF THE

SUPERINTENDENT OF STREETS

OF THE

CITY OF NEW BEDFORD, MASS.

TO THE

CITY COUNCIL

FOR THE YEAR ENDING NOV. 30, 1934

THE DARWIN PRESS—Printers
New Bedford, Mass. — 1935

Report of the Superintendent

May 9, 1935

To the Honorable City Council,
New Bedford, Mass.

Gentlemen:—

I submit herewith the annual report of the Street Department for the fiscal year 1934.

The appropriations and expenditures for the year are shown in the various tables and a chart showing the annual appropriations and expenditures for Highways for the past fourteen years is included.

While the appropriation for Highways was $15,000.00 greater than for the preceding year, the increased expenditures for snow and ice more than offset this addition, as a result of which we were unable to secure some much needed equipment which I trust will be provided for in next year's appropriation.

It will be noted that the expenditures for general repairs amounted to about $14,000.00 more than in 1933, the increase being due to washouts and grading, including the grounds around the new Municipal Garage.

The cost of street cleaning was approximately $5,000.00 less than in the preceding year; this does not mean that the streets were kept as clean, but rather was due to lack of machinery with which to perform the work.

A new Municipal Garage was built as a F. E. R. A. project and turned over to this department on August 8. The building is of salvaged materials from the Bristol Mill, 306 x 62 feet in size, with a repair shop 65 x 51 and provides ample storage space for our motor equipment, including the loaders, sweepers and rollers.

Work was undertaken on two P. W. A. projects, namely, Docket No. 3694 — Streets and Docket No. 4201 — Sewers. Neither project was completed at the close of the year and work will be resumed as soon as weather conditions will permit. Details of work will be found in the tables.

In addition to regular departmental activities and P. W. A. projects, the department had general supervision over F. E. R. A. projects totaling in cost $432,733.00. A list of the projects is included in the report.

My comments on the need of new equipment of last year still hold, only to a greater extent, and it will be necessary to provide means for replacing worn-out equipment or revert to old methods of doing the work, which of course will be much more expensive.

I again take this opportunity to commend my fellow workers and the heads of various departments who have given me their co-operation and assistance in keeping down the cost of operation.

Respectfully submitted,

W. P. HAMMERSLEY,

Superintendent.

NEW BEDFORD—1934

CITY OF NEW BEDFORD, MASS.
OFFICE OF THE NEW BEDFORD WATER BOARD,
DECEMBER 31, 1934.

To the City Council of the City of New Bedford:

GENTLEMEN:—In compliance with Section 91 of the City Ordinances, the New Bedford Water Board herewith submits its Sixty-fifth Annual Report, it being for the fiscal year ending November 30, 1934.

Accompanying and incorporated with it are the reports of the Water Registrar and Superintendent for the same period. You are referred to the Water Registrar's report for detailed financial statement and to the Superintendent's report for details of the operation of the department for the year.

On June 14th, you reelected Mr. Thomas F. Glennon a member of this Board for a further term of three years.

ADDITIONAL SUPPLY ACTS 1924

The last of the claims for damage by reason of the taking of the waters of Long and Assawompsett ponds under Chapter 400, Acts of 1924 have been settled by payment to twenty-seven claimants the sum of $32,500.00. Of this amount New Bedford and Fall River each pay 40% or $13,000 and Taunton pays 20% or $6,500, under the terms of the act.

A final payment of $250.00 has been made to Mr. Chester E. Weston, for making a complete transcript of titles to all lands on the easterly side of Assawompsett and Pocksha Ponds. This transcript is very complete and traces the titles from Indian ownership to date.

The following is a brief statement of financial transactions on account of the bonds issued under this Act.

Balance November 30, 1933		$30,265.70
Credit by sale of building		98.28
		$30,363.98
Settlement of claims	$13,000.00	
Legal expenses	2,960.00	
C. E. Weston for title research	250.00	16,210.00
Balance November 30, 1934		$14,153.98

SECOND FORCE MAIN

Our petition to the Federal Government for funds to complete the Second 48 inch Force Main was granted. As it was found that bonds could be issued by the City directly to the banks at a more favorable rate of interest, they were so issued and the Federal Government has agreed to grant 30% of the cost of labor and materials used on this project.

It was originally intended to use cast iron pipe for this work. After due consideration it was decided to take bids on three types of pipe, viz:—

1 — Cast Iron pipe lined with bitumastic enamel

2 — Steel pipe lined and coated with bitumastic enamel

3 — Steel cylinder reinforced concrete pipe.

Specifications were drawn up and bids were invited on this basis and on June 14th the contract was awarded to the lowest bidder; viz—the Lock Joint Pipe Co. of Ampere, N. J. who furnished and laid steel cylinder reinforced concrete pipe at $10.90 per lineal foot. The total amount of their bid based on the estimated length was $207,100. Gates, check valves, air valves, special castings and work furnished by this department brings the estimated total cost of the job to $237,624.68.

The total estimated cost based on cast iron pipe was $500,000 and bids received on this type of pipe indicate that this estimate was correct. Thus the change in type of construction reduced the cost of the entire job about one half.

The pipe was manufactured at Braley's Station and local labor was used almost exclusively in its manufacture and installation. It resulted in the employment of much more local labor than would have been the case if either cast iron or steel pipe, which would have been manufactured elsewhere, had been used.

The Lock Joint Pipe Co. started setting up their pipe manufacturing plant at Braley's July 1st and the pipe line is now completely finished except a little grading over a part and making the final acceptance test on a little less than half the line.

A little over half the line has been tested and proves to be remarkably tight, the leakage in the section tested being about seven gallons per day per inch mile.

The following is a financial statement of this project.

RECEIPTS:—Bonds issued	$380,000.00
PAYMENTS:—	115,354.95
Balance	$264,645.05

There will be a substantial balance left after all payments on this project are made. We would recommend that enabling legislative action be obtained and this balance applied to salvaging the old steel main after the new main is put into service.

E. R. A. PROJECTS

During the year we have had from 75 to 100 men doing forestry work on the water shed.

About 412 acres have been improved by pruning and weeding the pine and spruce plantings on various parts of the watershed and cutting hard wood on the westerly side of Little Quittacas pond. About 1600 cords of wood have been cut and 560 cords of this have been delivered to the City Welfare department. Trash wood too small to be used has been burned and those parts which have been worked on have been decidedly improved.

The underground piping at the Bristol Mill and the Whitman Mill weave shed, which became the property of the City and have been torn down, has been removed and placed in stock at our pipe yard. The pipe and fittings will be cleaned and coated with bituminous material and used as occasion requires.

Under the supervision of the Superintendent of Buildings, two wooden buildings at our workshop which were in poor condition have been torn down and plans are made to remove the third one.

One of these has been replaced by a 13 stall garage for our trucks. The other two will be replaced by a two story brick mill construction storage building. The wooden wall of the shed adjoining No. Water St. which was in poor condition has been replaced by a brick wall.

At the Quittacas Pumping Station a 15 stall garage is being built. Most of the material for all these buildings was from the Bristol and Whitman Mills.

In cooperation with the Forestry Department, a tract of land on the water shed and located on the east side of the Marion Road just north of Black Brook is being used by that department as a nursery for raising trees to be later set out in the streets of the City.

BOILERS AT QUITTACAS PUMPING STATION

There are two 150 H. P. Scotch Marine type boilers at this station, one installed in 1899 and the other in 1901. They have given excellent service since then with very little expenditure for maintenance and repairs since they were installed.

By advice of the Hartford Steam Boiler Inspection and Insurance Co., who insure these boilers, the steam pressure on these boilers was reduced from 200# to 170# a few years ago. This company now advises us that it will soon be necessary to again reduce steam pressure or replace the boilers on account of their age. It is impractical to operate the pumps under less than the present pressure, so it will be necessary to provide for their replacement during the coming year.

We recommend that the sum of $16,000 be provided in the next budget, for the purpose of installing one new boiler of about 200 H. P. capacity in the space now available in the boiler house and connecting it with the steam main to the pumps. This will provide a spare unit ready for use when the present boilers are no longer fit to operate. Such a boiler would normally operate one pump and could be forced to operate both pumps in an emergency of short duration. When the existing boilers are abandoned it will be necessary to install a second unit of similar capacity in the space now occupied by them.

In accordance with your request the roadway leading through the Water Works property by the Quittacas Pumping

Station from the Middleboro road to the Long Plain Road has been designated as "Negus Way" and signs have been so marked.

The life lease of property on Pocksha Pond, bought from Mrs. Annie M. Buchanan has been terminated by her death. The buildings on that property were sold at auction and removed.

The buildings on the E. N. Barrows property formerly occupied by Mr. Chas. W. Wyman were vacated by him. As they were in very bad condition they have been sold and removed.

Three petitions for extension of main pipes have been granted. They called for the laying of 2,044 ft. of pipe. In addition to this 974 ft. of main pipe have been laid for the improvement of the distribution system.

The following abstract from the Water Registrar's report shows in condensed form the financial operations of this department in connection with the maintenance and ordinary extensions for the year. Full details will be found in his report which accompanies this.

FIRST, BASED ON BUDGET SYSTEM

Budget appropriation		$192,000.00
Service transfers		11,566.10
		$203,566.10
Expenditures	$198,610.79	
City Council transfers	4,725.00	203,335.79
Returned to general fund December 1, 1934		$230.31

SECOND, BASED ON RECEIPTS AND EXPENDITURES

RECEIPTS

Balance, December 1, 1933	$528.72	
Receipts from water, meter rentals demands and shut off charges	346,777.53	
Receipts from other sources	17,606.22	
		$364,912.47

EXPENDITURES

Management and repairs	$190,169.54	
Interest	56,178.75	
Bonds	69,000.00	
Extensions	8,441.25	$323,789.54
*Balance, December 1, 1934		$41,122.93

The total outlay for the construction of these works exclusive of debt, interest, management and repairs account through 1933 was				$6,515,306.40

INCREASE 1934

	Payments	Credits	Net	
Chapter 400	$16,210.00	$98.28	$16,111.72	
Distribution	8,441.25	4,509.28	3,931.97	
	$24,651.25	$4,607.56	$20,043.69	$20,043.69

Outlay to December 1, 1934	$6,535,350.09
Payments on 2nd Force Main under PWA not included amounts to	$115,354.95

*This figure represents the balance which would exist under the former system when all receipts were applied to water works purposes. As a matter of fact, this amount has been applied to general city funds and used to reduce the tax levy.

We believe that the principle laid down in the Legislative act creating this department in 1863 and by Section 85 and 89 of the City Ordinances, providing that all receipts of this department should be set apart for water works purposes only are wise and should be carried out. The reasons for this belief are stated more fully in our last year's report.

RECEIPTS AND EXPENDITURES SINCE 1906

Year	Receipts for Water	Total Receipts	Maintenance Interest and Bonds	Extensions Paid from Regular Receipts	Extensions Paid from Bond Account	Diverted by City Council and City Auditor	Total Expenditures	Balance 1st of Year

*Includes receipts and expenditures on Bond Account as follows:

Chapter 202 Acts of 1909	$250,836.65
Chapter 65 Acts of 1911	151,391.78
Chapter 75 Acts of 1912	161,019.78
Chapter 232 Acts of 1921	676,110.81
Chapter 65 Acts of 1923	350,493.15
Chapter 400 Acts of 1924	200,772.87
2nd Force Main, 1930	200,000.00
	$1,990,625.04

*Receipts and expenditures do not include payments under P.W.A. on 2nd Force Main.

**Reverts to General City Funds

On June 20th a contract was made by the Clerk of Committees with David Duff & Son for 2,415 tons of Pocahontas coal. The greater part of this is for use at Quittacas Pumping Station.

In connection with the second force main the following contracts have been awarded after due competition.

Date	Contractor	Supply	Consideration
1934 Feb. 28	Rensselaer Valve Co.	1—48″ check valve	$2,328.98
June 14	Lock Joint Pipe Co.	Furnishing & Laying 19,000 ft. 48″ pipe	$10.90 per lin. ft.
Aug. 2	Rensselaer Valve Co.	2—6″ air valves	$250.00 each
	Darling Valve Mfg. Co.	1—36″ gate valve 4—12″ gate valves	$1,002.30 $63.48 each
	U. S. Pipe & Fdy. Co.	Abt. 16½ T. iron castings	$150.00 per ton

The following are the principal contracts that have been made during the year on the regular account.

Date	Contractor	Supply	Consideration
1934 Jan. 4	Motor Sales Co.	Ford V8 Sedan	$578.00 and Studebaker Dict. Sedan
May 10	John G. Nicholson	1,600 Creosoted Railroad Ties	$1.21 per tie

In closing we desire to express to you our appreciation of your cooperation during the year.

Respectfully submitted,

CHARLES S. ASHLEY,
FRED ROBINSON,
JAMES O. THOMPSON, JR.
ELTON S. WILDE,
THOMAS F. GLENNON,
New Bedford Water Board.

REPORT OF THE WATER REGISTRAR

City of New Bedford,
Water Registrar's Office,
December 1, 1934.

To the New Bedford Water Board:

Gentlemen :—

I herewith present to you a detailed statement of the receipts and expenditures of the Water Works Department for the year ending November 30, 1934.

This report is based on budget vs. expenditures and also on receipts and expenditures as previously.

An examination of the report based on receipts and expenditures shows the receipts exceed the expenditures including interest and bonds by $41,122.93 which reverts to General City Funds.

FIRST, BASED ON BUDGET SYSTEM

Appropriation		$192,000.00
Service transfers		11,566.10
		$203,566.10
Expenditures	$198,610.79	
City Council Transfers	4,725.00	203,335.79
Returned to General Fund Dec. 1, 1934		$230.31

SECOND, BASED ON RECEIPTS AND EXPENDITURES AS PREVIOUSLY

RECEIPTS

Rates:		
Under 10,000 cu. ft. per quarter	$170,628.96	
Over 10,000 and less than 100,000 cu. ft. per quarter	37,973.82	
Over 100,000 and less than 1,000,000 cu. ft. per quarter	78,676.00	
Over 1,000,000 and less than 2,000,000 cu. ft. per quarter	12,433.06	
Over 2,000,000 cu. ft. per quarter	21,257.24	
Estimated and building purposes	222.95	
Total receipts from water		$321,192.03

Meter rentals		24,374.55	
Demands and shut off charges		1,210.95	25,585.50
Total receipts from water, meter rentals, demands & shut off charges			346,777.53
Balance Dec. 1, 1933			528.72
Total			347,306.25
Miscellaneous Receipts:			
For detail see credits under expenditures			17,606.22
Total receipts			364,912.47
Expenditures:			
Bills	$61,138.92		
Pay rolls	137,471.87		
		$198,610.79	
Interest	56,178.75		
Bonds	69,000.00	125,178.75	323,789.54
Balance Dec. 1, 1934 reverting to General Fund			$41,122.93

EXPENDITURES IN DETAIL

	Payments	Credits	Net
Maintenance:			
Supt. Dept. salaries including general foreman	$14,072.60		$14,072.60

REPORT OF THE SUPERINTENDENT

New Bedford Water Works,
Superintendent's Office
December 1, 1934.

To the New Bedford Water Board:

Gentlemen:—The Sixty-fifth Annual Report of your Superintendent for the year ending November 30, 1934 is herewith respectfully submitted.

Through the courtesy of Mr. Arthur D. Weston, Chief Engineer of the State Department of Public Health, the results of monthly analyses of samples of water from the Lakeville Ponds, our source of supply, are incorporated in this report. These show that the quality of water supplied continues to be excellent.

Copies of the rainfall records at Little Quittacas Pumping Station in Rochester and at the Storing Reservoir at Long Plain are appended; also tables showing in detail the work of this department.

The work of ditching Black Brook Swamp is necessarily at a stand-still until rights or titles to property in this territory are obtained. All swamps on the water shed of Little and Great Quittacas Ponds where the City holds title or has been able to obtain permission from the owners have been ditched and these ditches are maintained by cleaning when necessary. The work has resulted in considerable improvement in color, taste and odor of the water supplied. Still further improvement is possible by continuing this work in the Black Brook area as recommended in my previous reports.

The rainfall as recorded at Quittacas Pumping Station, full details of which appear in Table E was 42.04 inches. This is 7.85 inches less than last year and 3.05 inches less than the average for the past forty years,

POND ELEVATIONS

The water level in Pocksha Pond has varied from 48.71 on Oct. 17, 1934 to 51.08 on Apr. 25, 1934. The present elevation is 48.96. The average elevation for the year was 49.94

The elevation of Great Quittacas Pond has varied from 48.67 on Oct. 17, 1934 to 51.13 on Apr. 25, 1934. The present elevation is 48.91. The average elevation for the year was 49.94

The elevation of Little Quittacas Pond, which is controlled by gates in the connection with Great Quittacas Pond, has varied from 48.13 on Dec. 27, 1933 to 47.32 on Oct. 3, 1934. The present elevation is 47.47. The average elevation for the year was 47.65.

Water was drawn from Pocksha Pond into Great Quittacas Pond from July 1, 1934 through Nov. 30, 1934. During this period the Venturi meter recorded a draft of 728,600,000 gallons. For the remainder of the year water was wasted from Great Quittacas Pond into Pocksha Pond. 607,850,000 gallons was wasted through the Venturi meter and an additional indeterminate amount was wasted into Pocksha Pond over the wasteway dam at some periods when Great Quittacas Pond was higher than Pocksha.

FORESTRY

We have purchased 15,000 six year Red Pine Transplants from the Winchendon Forest Nurseries Inc. and planted them on the water shed.

The usual pruning and weeding operations have been carried on. We have had the assistance of an average of 100 men under the Emergency Relief Act which has resulted in considerable progress in this work.

QUITTACAS PUMPING STATION

The pumping engines at this station continue to operate efficiently with very little expense for repair.

The Hartford Steam Boiler Inspection and Insurance Co. have advised that the boilers have reached the age when serious consideration should be given to their replacement and provision for this in the next budget has been requested. These boilers have given excellent service for 33 and 35 years respectively with very little expense for maintenance and reflect great credit on their designers and builders.

This entire plant demonstrates conclusively that it is good economy in the long run to install the best machinery obtainable even at an increased original cost.

RAILROAD

The railroad connecting Quittacas Pumping Station with the main line of the N. Y., N. H., & H. R. R. at Braley's has been kept in good repair. Ties which have rotted have been replaced by creosoted ties.

FORCE MAINS

No trouble has been experienced with the old 48 inch steel force main, which has been in service since 1899.

With the exception of a little grading over the line, the second force main is now complete.

The contractors have done an excellent piece of work on this job, manufacturing and laying about 19,000 ft. of 48 inch pipe in a little over five months. About half of the new line has been tested and found remarkably tight.

This work is more completely described in the Water Board's report to the City Council.

Under the advice and with the assistance of the State Dept. of Public Health, this new main is being thoroughly sterilized before being put into service by the application of chlorine gas. The water thus treated is drawn off through waste gates and the main will be finally filled with untreated Quittacas water when actually put into use.

This new main will be in service within a few weeks. Thought should now be given to salvaging the old steel main, thus maintaining duplicate force mains, so that in case of accident to either one, the other will be available. The regular use of both mains will reduce the friction head against the pumps, thereby reducing the cost of pumping. As the consumption increases the need for both mains will become greater. I recommend that the work of salvaging the old steel main be taken up actively during the coming year.

HIGH HILL RESERVOIR

This reservoir remains in good condition. The new force main has been connected with the intake gate house; also with the 36-inch by-pass on the east side of the reservoir. This necessitated a deep cut in the bank of the reservoir and removing and replacing the stone steps approaching the intake gate house. It also necessitates some alterations of the fence on the east side to permit access by the gate operating truck to the various gate valves in the cross connection.

It will be advisable to paint the entire fence during the coming year.

OLD ACUSHNET SYSTEM

This system remains intact except that the engines at Purchase Street Station are obsolete and would need replacement if the station were to be operated.

Mt. Pleasant Reservoir is kept filled with Quittacas water and in case of necessity would deliver fifteen million gallons into the distribution system at a slightly reduced pressure.

DISTRIBUTION SYSTEM

The demand for extension of main and additional service, although slightly more than last year, continues small as compared with earlier years.

Several long dead ends have been connected for the improvement of the quantity and quality of the supply in the location affected.

Twenty-two thousand thirty-one feet of main pipe have been laid with the necessary gates, hydrants, etc. as per details in Tables L, N, T.

Twenty hydrants have been broken off by skidding or carelessly driven automobiles. The cost of repairing them was $1,017.48, of which $710.99 was collected from the owners or their insurance companies.

LEAKS

There have been twelve leaks on main pipe during the year as herewith shown:

Date	Size	Location	Cause	Am't
1933				
Dec. 9	12″	Church St., near N. line Central Ave.	Joint leaking	$14.57
1934				
Jan. 20	4″	Austin Ct., abt. 75′ S. of Austin St.	Pipe broken	29.05
Feb. 17	8″	Rochambeau St., abt. 25′ N. of Carlisle St.	Joint leaking	25.08
Apr. 28	48″	Middleboro Rd., abt. 400′ S. of Beaver Dam	Joint leaking	51.97
June 9	6″	Union St., E. of N. Y., N. H. & H., R. R. track	Joint leaking	15.33
July 21	10″	Tinkham St., abt. 10′ E. of Brook St.	Joint leaking	8.70
Aug. 18	8″	Weld St., abt. 20′ W. of Ashley Blvd.	Joint leaking	11.88
Sept. 8	4″	Market St., abt. 75′ W. of Pleasant St.	Joint leaking	15.02
Oct. 27	36″	Acushnet Ave., S. of Sassaquin Ave.	Joint leaking	11.89
Nov. 10	24″	Purchase St., N. of Dean St.	Joint leaking	9.13
	6″	Holden St., W. of Conduit St.	Joint leaking	9.13
Nov. 24	36″	Acushnet Ave., S. of Braley Rd.	Joints leaking	16.09

Fourteen feet of small size distribution pipe (less than 4 inch) have been laid and two hundred thirty-eight feet removed. The total length now in use is 7,669 ft.

Eight new stop gates have been set. The total number now in use is 2,919.

Three small size gates have been removed. The total number now in use is 81.

Four waste gates have been set. The total number now in use is 207.

Three air taps have been set. The total number now in use is 216.

Seven new stop gates for private supplies have been set. The total number now in use is 666.

Eight new hydrants have been set and three of those previously set have been removed. The total number now in use is 1899.

The total number of watering cart hydrants now in use is 34.

The total number of sprinkler car hydrants now in use is 8.

Thirty-four service pipes have been laid and none of those previously laid have been removed. The total number now laid is 19,366. Of this number two hundred fifty-five are unmetered fire services, seventeen thousand four hundred twenty-nine are metered, and the balance sixteen hundred eighty-two are not now in use.

Six hundred twenty-six taps have been cleaned as follows:

Rust 524; trouble inside 102.

Three thousand five hundred fourteen meters have been removed for repairs and three thousand five hundred forty have been reset. Also twenty-two new meters have been set for the year making a total of 48 meters to be added. Total number in use is 17,429.

CONSUMPTION OF WATER

The Consumption of Water during the year has been as follows:

Month	Monthly Consumption				Daily Average Consumption
	New Bedford	Dartmouth	Acushnet	Total	
	Gallons	Gallons	Gallons	Gallons	Gallons
1933 December	272,418,600	6,554,250	2,178,750	281,151,600	9,069,407
1934 January	273,912,190	6,434,250	2,425,500	282,771,940	9,121,676
February	268,995,510	6,322,500	2,460,750	277,778,760	9,920,670
March	282,118,070	6,329,250	2,179,500	290,626,820	9,375,058
April	254,241,050	6,702,000	2,120,250	263,063,300	8,768,777
May	266,682,570	7,185,000	2,232,750	276,100,320	8,906,461
June	279,573,130	8,475,750	2,337,000	290,385,880	9,679,529
July	315,874,510	12,894,000	2,724,750	331,493,260	10,693,330
August	309,448,150	12,118,500	2,693,250	324,259,900	10,459,996
September	253,808,080	9,308,250	2,414,250	265,530,580	8,851,019
October	255,575,880	8,336,250	2,067,750	265,979,880	8,579,996
November	248,803,361	6,563,250	2,259,000	257,625,611	8,587,520
Totals	3,281,451,101	97,223,250	28,093,500	3,406,767,851	
Averages				283,897,320	9,333,610

Maximum daily consumption—July 19th	13,430,080 gallons
Minimum daily consumption—May 20th	6,053,140 gallons
Average daily consumption—6 A. M. to 6 P. M.	5,740,485 gallons
Average night consumption—6 P. M. to 6 A. M.	3,593,125 gallons

Amount of water consumed shown on above table includes the supplying of about 51.12 miles of distribution pipes located in the adjoining towns of Dartmouth and Acushnet. Dartmouth supplies 7,120 consumers of which 295 are summer residents through 1,424 taps. Acushnet supplies 3,500 consumers through 643 taps.

COMPARISON OF THE CONSUMPTION OF THE YEAR 1934 WITH THE RECORD OF THE 53 PREVIOUS YEARS.

Year	Estimated Population	Estimated number of consumers	Number of taps	Total number of gallons consumed	Average daily consumption	Gallons per day to each inhabitant	Gallons per day to each consumer	Gallons per day to each tap	Number of meters
1882	28,500	20,424	4,203	859,119,622	2,326,352	82	114	553	41

*Includes population supplied in towns of Dartmouth and Acushnet; 2,067 taps, 10,620 consumers.

†This consumption is for eleven months.

CONSUMPTION

The consumption increased 41,137,921 gallons, an average of 112,707 gals. per day or 1 2/10 per cent. The receipts for water, meter rentals, demands etc. have increased $11,284.03 or about 3%.

Based on the period from July 1, 1933 to July 1, 1934, which is the time all meter readings are available, meters account for 83 8/10% of all water pumped. Slippage of meters, leakage, water wasted by broken hydrants, flushing, used for fires, filling Mt. Pleasant reservoir and the new force main, testing, etc. account for the balance.

The following table shows the number of accounts, registration and income in the various steps of the sliding scale of water rates.

DATA ON METERED CONSUMPTION AND REVENUE

July 1, 1933 Through June 30, 1934

(All Active Services Except Fire Supplies Metered)

	No. of Accts.	Number of Gallons			Receipts for Metered Water		
		Total	Per Account	Per day Per Acct.	Total	Per Account	Per 1,000 gallons
Using less than minimum rate viz.—33,333 1/3 gals. per year	4,493	89,659,500	19,955	55	$21,985.90	$4.89	$.245
Using over minimum rate but less than 75,000 gals. per quarter	12,178	982,398,750	80,670	221	147,548.37	12.17	.15
Using between 75,000 and 750,000 gals. per quarter	375	266,798,250	711,462	1,946	37,033.22	98.76	.138
Using between 750,000 and 7,500,000 gals. per quarter	89	685,655,250	7,703,992	21,107	75,154.87	844.44	.110
Using between 7,500,00 and 15,000,000 gals. per quarter	5	173,424,000	34,685,800	95,030	16,006.78	3,201.36	.092
Using over 15,000,000 gals. per quarter	4	715,873,500	178,968,375	490,050	23,207.48	5,801.87	.029
Totals and Averages	17,144	2,913,809,250	169,436	464	320,936.62	18.72	.110

Respectfully submitted,

STEPHEN H. TAYLOR,

Superintendent.

Total fall for the year—43.16 inches

TABLE H.

STATEMENT OF WORK DONE BY LEAVITT ENGINE A FOR THE YEAR ENDING DECEMBER 1, 1934

Diameter steam cylinders 16 3/8 and 36 23/63 in.
Diameter pump plungers 13 7/10 and 19 3/8 in.
Stroke of piston plungers 90 inches.

Average working steam pressure, 170 lbs.
Average static head 167.94 ft.

Months	Number of days or parts of days pumping	Total pumping time per month		Total number of strokes per month	Average number of strokes per minute	Fuel Total fuel used for all purposes including lighting and heating building.	Total number of gallons pumped per month allowance being made for slip	Number of gallons pumped per pound of coal for total coal	Number of gallons raised 100 ft. per lb. coal for total coal	Average dynamic head against pump in feet; no allowance for friction in suction	Average duty in pounds raised one foot high per 100 lbs. coal, calculated on total fuel used for all purposes.

SUMMARY OF STATISTICS

FOR THE YEAR ENDING DECEMBER 1, 1934

IN FORM RECOMMENDED BY THE NEW ENGLAND WATER WORKS ASSOCIATION.

NEW BEDFORD WATER WORKS

NEW BEDFORD,
BRISTOL COUNTY, MASS.

GENERAL STATISTICS.

Population by census of 1930—112,804.

Date of construction, 1866 to 1869, inclusive. Further supply, 1895 to 1899, inclusive.

By whom owned, City of New Bedford.

Source of supply.—Water was first introduced on Nov. 26, 1869. From that date until July 10, 1899, the supply was taken from a storing reservoir artificially formed by constructing a dam across the valley of the Acushnet River, seven miles north of the centre of the City. This supply was augmented by a connection made in 1886 with Little Quittacas Pond.

Since July 10, 1899, the whole supply has been taken from Great and Little Quittacas Ponds, eleven miles north of the centre of the city.

In 1926, under Legislative Authority to take 11½ million gallons of water per day from Long, Assawompsett and Pocksha Ponds, a connection was made to bring water from Pocksha into Great Quittacas Pond, when needed.

Mode of supply.—Previous to July 10, 1899, the water flowed by gravity from the Acushnet Storing Reservoir (grade 40′ + high water New Bedford Harbor) through a brick conduit 3 feet wide, 4 feet high, 5 6-10 miles long to a receiving reservoir (capacity 3 million gallons; grade 30′) located opposite the Purchase Street Pumping Station. Thence it was pumped into the Mt. Pleasant Distributing Reservoir (capacity 15 million gallons; grade 154′) located 1,879 feet distance, from whence it flowed by gravity into the city's distributing system.

Since July 10, 1899, the entire supply has been pumped from little Quittacas Pond (grade 52′ through a 48 inch steel force main 8¼ miles long) to a distributing reservoir (capacity 67 million gallons; grade 216′) located upon High Hill, in the town of Dartmouth. From this reservoir it flows into the city's distributing system by gravitation through two 36-inch cast iron pipes averaging 4 1-17 miles in length.

It is also possible to pump directly to the city through a 48″ and 36″ main using either reservoir as a balance. This latter connection was completed in 1922.

The first named system is not now in use, but is held in reserve to meet any emergency which might occur.

PUMPING STATISTICS.

1. Builders of Pumping Machinery.
Purchase Street Station:

a. McAlpine engine, built by Quintard Iron Works.	Cap. 5,000,000 gals. per 24 hrs.
b. High duty engine, built by Henry R. Worthington, Little Quittacas Station:	Cap. 5,000,000 gals. per 24 hrs.
a. b. Leavitt engines in duplicate, built by Dickinson Mfg. Co.	Capacity of the two engines 20,000,000 gallons per 24 hrs.
c. DeLaval electrically operated centrifugal pump, directly connected with a General Electric squirrel cage type I. Form K. 3 phase, 60 cycle, 550 volt, 250 H. P., induction A. C. motor, operating at about 1800 revolutions per minute, built by DeLaval Steam Turbine Co. Current purchased of New Bedford Gas and Edison Light Co.	Capacity about 6,000,000 gals., delivered into High Hill Reservoir in 24 hours.

LITTLE QUITTACAS STATION—Engine A and B.

2. Description of fuel used.
   - **a.** Kind—bituminous.
   - **b.** Brand of coal—New River.
   - **c.** Price of coal per net ton—delivered Little Quittacas Station $6.23.
   - **d.** Percentage of ash—7%.
   - **e.** Wood, price per cord—none used.
3. Coal consumed for the year—4,239,010 lbs.
4. (Pounds of wood consumed)÷3—equivalent amount of coal —none used.
5. Total equivalent coal consumed for the year=(3)+(4) 4,239,010 lbs.
6. Total pumpage for the year — 3,364,726,200 gallons with allowance for slip.
7. Average static head against which pump works—167.78 feet.
8. Average dynamic head against which pump works—183.18 feet.

9a. Number of gallons pumped per pound of equivalent coal (5) 794.

9b. Number of gallons raised 100 feet per pound of equivalent coal (5) 1454.

10. Duty=

$$\text{Duty}=\frac{\text{gals. pumped (6)}\times 8.34\text{ lb.}\times 100\times\text{dynamic head (8)}}{\text{Total fuel consumed (5)}}=121{,}263{,}303$$

LITTLE QUITTACAS STATION—Engine C.

11. Total pumping time for the year 13 hrs.
12. Total current used for the year 33,700 K. W. H.
13. Total pumpage for the year, 33,937,851 gallons.
14. Number of gallons pumped per K. W. H. 1,007.
15. Number of K. W. H. required to raise one million gallons into High Hill Reservoir 993.
    Cost per K. W. H. varies in accordance with amount consumed.
16. Average cost per K. W. H. .031.
17. Cost per million gallons raised into High Hill Reservoir, (Engine C. only) $31.07.

Total cost of pumping, figured on pumping station expenses, viz:$45,704.26.

18. Per million gallons pumped $13.45.
19. Per million gallons raised one foot (dynamic)—7 cents.

Cost of pumping figured on total maintenance and interest on bonds, (see financial CC+DD) less credits, viz: $233,251.35.

20. Per million gallons pumped $68.63.
21. Per million gallons raised one foot (dynamic)—37 cents.

Cost of pumping figured on total maintenance, interest on bonds and bond payments (see financial CC+DD +EE) less credits, viz: $302,251.35.

22. Per million gallons pumped $88.93.
23. Per million gallons raised one foot (dynamic) 49 cents.

STATISTICS OF CONSUMPTION OF WATER

1.	Estimated total population at date (New Bedford)	110,056
	Acushnet 3,500, Dartmouth 6,985	*120,676
2.	Estimated population on lines of pipe	*119,876
3.	Estimated population supplied	*119,876

Year July 1, 1933 through June 30, 1934

4.	Total consumption for the year	3,477,581,800
5.	Passed through meters	2,913,809,250
6.	Percentage of consumption metered	83 8/10
7.	Average daily consumption	9,527,621
8.	Gallons per day to each inhabitant	78.9
9.	Gallons per day to each consumer	79
10.	Gallons per day to each tap	445
11.	Average rate received per million gallons metered	110.14
12.	Average rate received per million gallons pumped	$92.29

Year December 1, 1933 through December 1, 1934

13.	Cost of supplying water, per million gallons figured on total maintenance (item CC) less credits	$51.98
14.	Cost of supplying water, per million gallons figured on total maintenance plus interest on bonds (less credits)	$68.47
15.	Total cost of supplying water per million gallons, figured on total maintenance, plus interest on bonds and bond payments (less credits)	$88.70

*Includes population supplied in the towns of Dartmouth and Acushnet.

STATISTICS RELATING TO DISTRIBUTING SYSTEM

MAINS

1. Kind of pipe cast iron and steel.
2. Sizes, from 4 inch to 48 inch.
3. Extended 22,031 feet during the year.
4. Discontinued 0 feet during year.
5. Total now in use 213.0403 miles.
6. Cost of ordinary maintenance per mile including flushing and inspecting gates and hydrants $18.25.
7. Number of leaks per mile .056.
8. Length of pipes less than 4 inches diam., 1.45246 miles.
9. Number of hydrants added during the year 5.
10. Number of hydrants public (1,899) and private (434) now in use 2,333.
11. Number of stop gates added during year 8.
12. Number of stop gates now in use, 2,919.
13. Number of stop gates smaller than 4 inch, 81.
14. Number of blow offs, 207.
15. Range of pressure on mains, 16 lbs. to 91 lbs.

SERVICES

16. Kind of pipe; lead, cast iron and copper tubing.
17. Sizes, ½ inch to 10 inch.
18. Extended 1,406 feet.
19. Discontinued 0 feet.
20. Total now in use, 143.4602 miles.
21. Number of service taps added during year:

New Bedford	34
Dartmouth	27
Acushnet	8
Total added	69

22. Number now laid:

New Bedford	19,366
Dartmouth	1,424
Acushnet	643
Total now laid	21,433
Total now in use	17,684

23. Average length of service 39.1 feet
24. Average cost of service for the year:

(a) Gross	$62.23
(b) Net	0.00

25. Number of meters to be added, 48. See Table W.
26. Number now in use, New Bedford only 17,429.
27. Percentage of active services, metered, 98 5/10.
28. Percentage of receipts from metered water (B ÷ C) = 100.

FINANCIAL STATISTICS.

N. Total		$379,066.45

Disposition of balance:

O. Net cost of works to date	$6,535,350.09
P. Bonded debt to date	1,433,000.00
Q. Value of sinking fund to date	0.00
R. Net debt to date	1,433,000.00
S. Average rate of interest	4.35 +

ANNUAL REPORT

Water Board, for the year ending November 30, 1934.

IN BOARD OF ALDERMEN,

CITY ORDINANCE

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Thirty-Four

AN ORDINANCE

Amending the Zoning Ordinance of the City of New Bedford by providing for the appointment of Associate Members of the Board of Appeals.

Be it ordained by the City Council of the City of New Bedford as follows:

SECTION 1. An ordinance zoning the City of New Bedford, approved December 24, 1925, and in effect January 16, 1926, as amended, is hereby further amended by adding at the end of Section 13 a new paragraph to be lettered "C", viz.:

There shall be two associate members of the Board of Appeals who shall be appointed by the Mayor and confirmed by the City Council in convention. The appointments first made shall be for terms to expire in January, 1935 and 1936 respectively, and thereafter one member shall be appointed annually in the month of January to serve for a term of two years.

SECTION 2. In case of a vacancy, inability to act, or interest on the part of a member of the Board of Appeals, his place may be taken by an Associate Member designated by the Mayor.

SECTION 3. This ordinance shall take effect upon its passage.
